It's The Season...

This is the time of year when undergraduates burn the midnight oil and still manage to dream of a summer's respite from studies. The members of the graduating classes are speeding arrangements for caps and gowns and other details of Commencement. Old grads are getting nostalgic as they prepare to relive years gone by at campus reunions.

Yes, it's perhaps the busiest time of the college year.

And it's a busy time at the friendly A&P Super Markets.

Besides the thousands of food products and other commodities regularly stocked, your A&P is merchandising all sorts of seasonal items. You'll see colorful plants, potted flowers, a variety of evergreens and other shrubs on display. Then, too, there are all kinds of seeds, turf builders, garden tools, lawn furniture and barbecue equipment.

So, when you want to beautify your grounds or more thoroughly enjoy outdoor living... remember A&P.

TRIUMPH!

DEVELOPMENT PROGRAM EXCEEDS FIRST PHASE

ON Thursday, March 18 in the main ballroom of Boston's Sheraton Plaza, the University's Development Campaign reached the climax of its first phase with the announcement that the goal of \$15,000,000 had been surpassed. Speaking before a capacity audience, the following remarks of the Very Rev. Michael P. Walsh, S.J., Boston College President, told of the work and the results of the campaign and the plans for the future.

This is indeed a happy and momentous occasion, truly an historic milestone in the annals of Boston College. The success of our program is due to many, past and present. Not the least of those are the ones who laid the groundwork and foundation of Boston College.

Boston College started from humble beginnings under the leadership of Father McElroy with a handful of students and a half-dozen priests. We see in its history the vision and courage of Father Gasson, who made the giant step when he brought Boston College to its present site at Chestnut Hill. Perhaps we do not recall often enough the problems that were woven into all the years of that first century—challenges, struggles and the many sacrifices the past generation of Jesuits made in behalf of their love for Boston College. These Jesuits of the past, together with the lay faculty, paved the way and established the Boston College that appealed to so many alumni and friends these past years that they gave so sacrificially to the Boston College they know so well. And so tonight we acknowledge our debt to past generations who gave of themselves to make the Boston College we know today.

It is almost impossible to find expression for the sentiments of gratitude that I feel this evening. Perhaps the most gratifying experience of these past three years is that the success of this drive was due to all elements within our Greater Boston Community united towards achieving the goal of \$15,000,000. Parts were played by alumni, corporations, foundations, parents and friends. This was truly a

corporate effort, and so to all of those who have given so generously and selflessly, I say a humble but very sincere thanks. To the leaders of each division represented tonight at our Head Table my most heartfelt gratitude. To the Board of Regents, who from the beginning have been so encouraging, directing and advising various phases of the drive, giving also selflessly of their time and means to put the program across, I am also extremely grateful. It is most comforting to the present faculty and administration to realize that our efforts in behalf of Boston College have not gone unrecognized. Alumni and friends, corporations and foundations, have shown their appreciation for what we have tried to do by giving so generously these last few years.

There are many individuals who should be singled out by name for special recognition. There is one, however, who is not with us this evening, one who more than anyone else is responsible for the success of the first phase of our drive. His munificence began the drive with a generous gift of \$2,000,000. But even more significant than his monetary contribution was his continued support, encouragement, advice and interest. This program meant so much to him. He waited hopefully for this victory dinner; he wanted so much to be a part of it. His Eminence Cardinal Cushing can truly be called the second founder of Boston College, its most beloved alumnus, devoted friend, most generous benefactor. I am sure that he is in our thoughts and prayers this evening, and we earnestly beg God that he will be returned to full strength and health so that he can carry on all those things that only he can do so well.

To Dr. Chris Duncan, our Chairman for these past three years, a special word of thanks. He made many sacrifices, taking time from his busy schedule as a physician and from his family. He gave of himself night and day to see this drive come to reality. To all of you who have given so generously, my deepest and heartfelt thanks. And to you here tonight who have worked so incessantly, tirelessly, non-

stintingly, our warmest and everlasting appreciation. To our staff, under the dynamic leadership of Tom Cudmore, who also sacrificed much beyond the call of duty, our thanks and deepest gratitude. Because of your support, some of our hopes have already been realized. Last September, we opened our new Carney Faculty Center, with two hundred offices and twenty-one classrooms and seminar rooms. Before the end of March we intend to break ground for our new Science Center, which will accommodate the Departments of Physics and Biology. Our faculty is working at present on the plans for the new Institute of Human Sciences building and the new Library that we need so badly. As soon as these plans are completed, we will move along towards construction.

We had one objective when we began this program three years ago, and that objective was to make Boston College a stronger and greater university, to make it the best possible university. Our purpose and hopes were symbolized in the motto we chose—Strength in Excellence. Without your aid, we could never have realized the facilities, the development of our faculty, the expanded student-aid programs we have been able to introduce these past few years.

Today is an era of change. We see changes within the Church, changes within our society at home and abroad, changes in education on every level. And many changes have occurred in recent years at Boston College. We have kept pace with the demands and needs of this present generation, but we have always been mindful to keep fast the traditions and heritage of the past. And though we have grown, we hope that we have and will always keep strong the intimacy, the warmth, and all that made, and was so typical of, the Boston College of the first century.

Our growth in recent years can be truly called, as Dr. Duncan said, the Miracle of Chestnut Hill. A few facts and statistics will show what has been happening there in recent years. We have grown since the War from four buildings to thirty-eight buildings. Our faculty at present

is over eight hundred, sixty percent of whom have been hired in the last five years. Grants in the past five years have risen for subsidized research from \$200,000 to almost \$3,000,000. Scholarship aid since 1958 has gone from \$200,000 to almost \$1,500,000. Our student body has increased by 3,000, now numbering a total of 9,300. About 1958, our operational expenses for Boston College ran slightly under \$7,000,000. This year, the cost of conducting our activities at the Heights is close to \$16,000,000. In recent years, six doctoral programs have been opened. This past September, we inaugurated our Institute of Human Sciences, a research center that developed naturally from what Boston College has tried to do for this community with its business seminars. This research center will be devoted to a study of the social and psychological problems of large cities. Curricular changes and additions have been introduced in all the different departments in all of our schools. These are just a few insights into some of the changes that occur almost yearly at Boston College and are hopefully leading to a stronger and better Boston College.

Today higher education is facing many critical and challenging problems. All of you are aware of the large number of students expected in the next decade. We hear so much about the explosion of knowledge, the critical shortage of faculty in the years ahead, student unrest, the involvement of universities both in urban areas and on the international scene, the pressures on curricula from the high-school level and also from above, from the graduate school, the plight of the humanities in liberal arts, the need for stronger emphasis of religious and moral values. But the greatest need we have in higher education, and the need towards which all our energies should be directed, is quality education; and for this, of course, support is needed. The two sources of such support will be the continuously expanding voluntary giving and the aid that will come from governmental sources.

A few years back, public higher education accommo-

dated forty percent of all students in colleges and universities, private institutions encompassed sixty percent. Last year, the reverse occurred; sixty percent of our students were found in public institutions, and forty percent in private. The most conservative authorities estimate that within the decade seventy-five percent of all college and university students will be in public institutions, and only twenty-five percent in private. We cannot afford to pay attention only to the quantitative problem, nor can we neglect the private sector of education if we are interested in the good of our society. States and the federal government must begin to think of supporting education as it was supported after the War with the G.I. Bill of Rights, by supporting individual students as well as public institutions. So, hopefully, in the near future we can see here initiated in Massachusetts scholarship programs on the federal level that further financial aid to needy and worthy students, so that students can have the free choice of the institution best suited to their talents, desires and interests.

For the future of Boston College we have many hopes, plans, and dreams. To stay still is to regress. To be complacent in these days is to fall back. Gratified as we are tonight, grateful as we are for what has happened in these past three years, there is yet so much to be done. There is a need for us therefore to keep our sights to the future. As we begin our second century, the faculty and administration have searchingly, carefully evaluated, studied, and planned for the future of Boston College. We have found that we need more academic facilities. But brick and mortar, as important as they are, do not make a university. A university is judged primarily by the faculty it has. So it behooves us in the years ahead to enrich our faculty by the further addition of distinguished men and women to its already dedicated and devoted membership, and to give to them the atmosphere and assistance that is so necessary for scholarly work, good teaching, and the personal counselling of our students. Our emphasis in the future will be directed towards strengthening our graduate programs with doctoral

degrees in different departments. We hope to expand even further our involvement in international problems. We must continue to increase our efforts to enroll students who have the potential leadership for the Church and for society in every department and school of the University. To attract and to assist these deserving students, more financial aid is necessary, and hopefully we can increase our present aid from university funds more than tenfold in the coming year. To achieve our goals of strengthening Boston College, much more is needed. It is obvious to all of us close to the University that by 1970 we need another \$25,000,000. Tonight we finish one phase and immediately begin a second. To fulfill our commitment to excellence in every sphere, to realize our responsibility to the community, the nation, and the world in our second century, we must set our sights high. After much study, we find that more is needed, and hopefully all of us can return again a few years from now when we meet the challenge of our second phase to announce the achievement of another \$25,000,000. You here tonight have made possible through your dedication, your many sacrifices of time and means, your continuous and almost daily interest in Boston College, the first step in this direction. Again, may I express to all of you my sincerest and most profound gratitude. Yet there is still much more needed to be done. Our vision for the future of Boston College is a staggering and ambitious and awesome one. But heartened and inspired by what has already been accomplished in this first phase, we look forward to even greater heights of excellence and achievement. I cannot reach them alone. Who can I ask except you, our friends, to help me? May I therefore count on you to finish in the next few years the job we have begun so well together.

As the special guest speaker of the evening, Carl J. Gilbert, Board Chairman of the Gillette Company complimented the University in his talk "A Businessman Looks at Boston College." Mr. Gilbert, a member of the Board of Regents is a Director of the Morgan Guaranty Trust Co., the Pepperell Mfg. Company among others and was awarded an honorary degree by Boston College in 1958.

OCCASIONALLY I am invited to speak before various educational groups, perhaps because of my known keen interest in education or perhaps because they want someone to drop a bomb. Usually I have the discretion to say "no" but this time when my good friend Father Walsh asked me to comment briefly at this dinner on a businessman's view of Boston College and its accomplishment in the Development Program, I of course had to say "yes." A long time interest in Boston College, a deep respect for the institution and for the wise men who guide its destiny, and a deep sense of gratitude for the contributions which Boston College has made to our community make me thankful for the opportunity to participate in the program tonight.

As a businessman, it seems to me that if the basic principles of effective business management are conceived broadly enough, they are generally applicable to nearly every other organized activity. In the broadest sense, management is concerned with organizing people, money and materials so as to make each of maximum effectiveness in attaining the objectives of the activity—ideally in such a fashion that the aggregate strength of the activity becomes greater than the arithmetic sum of the parts.

This evening I would like to think our loud for a few minutes about Boston College and its role in the field of higher education and of her commitment, as a university to the total community.

Formal education is an enterprise of our complicated society designed to develop human capital resources, our country's greatest asset and one which we cannot neglect in an era which devotes so much of its energy to fashioning oil wells, nuclear reactors, space ships, automobiles—and yes, better razor blades. In the years ahead one can predict that our success or failure in the development of our resources of "human capital" will be the most significant factor determining our national success or failure. In the final analysis, the greatest asset of any nation lies in the knowledge and wisdom of its people, young and old, conservative and liberal. In their collective ability to seek solutions to current problems guided as to their objectives by the glimpse of the future which knowledge can bring, and in the selection of the means to be chosen to accomplish these objectives by wisdom derived from the lessons of the past, lies our hope of a great national future. Education will point the way out of our civil rights dilemma; education will point the route to outer space and equally important to guide us as to how much of our national resources should be allocated for this purpose; education obviously is the key to advances in all fields of science and medicine; and hope fully education can become a more important factor in its influence on Government where all too often we see governments choosing objectives and methods in apparent disregard of the lessons of history.

No effort upon which our nation is engaged is more important to our future whether in terms of military and economic strength or in terms of the health, happiness and general welfare of our people. I wonder how often people reflect on the fact that the widespread availability to our youth of high quality higher education has been the true leveler, in the highest sense, which has made possible the development of our classless society in which man's ambitions have been so little limited by the economic or social status of his parents.

Carl J. Gilbert addresses alumni and friends of Boston College at the Development Victory dinner.

Father Walsh, President of Boston College, made a statement recently which I think sums up very well the role of education today. He said: "Civilization is a race between education and catastrophe. Indeed there have been times in human history when catastrophe has seemed to be making the more serious gains. Our world shrinks in size, but the complexity and the perplexity of our problems seem only to increase. We cannot surrender to any belief that the problems are insuperable, but whether and how we, as a free people, progress and direct ourselves toward their eventual solution will depend largely upon whether our colleges and universities continue to develop, to examine and to proclaim the ideas and ideals of free men."

Our universities thus play a vital role in shaping our future and the problems they face are of an equal order of magnitude to the importance of that role. The so-called "population explosion" coming at the same time that a growing realization of the importance of higher education, a generally higher level of economic activity and the rapidly widening frontiers of knowledge, combine to lead a larger proportion of our youth to pursue a higher education and to pursue it for a longer period, pose problems for the universities requiring the highest degree of management skills and the availability of ever increasing resources. No institution, no matter how rich it may seem, will ever have *all* the resources it can employ in pursuing *all* of the objectives which it can see as desirable. The choices between desirables which are the daily tasks of a university administration are not easy ones and require great wisdom.

Now, let us take a closer look at Boston College, and if we can, measure its role and its accomplishments as a university in our complex society. I have some familiarity with Boston College and its workings as an institution of higher learning. I have participated in many activities in this community in which this institution was an active partner, and I have been a member of the Board of Regents there for the past five years.

As I see it, Boston College is an integral part of a great cultural environment in one of the oldest communities in the nation. The first hundred years have shown decisively that she has made a distinctive contribution to higher education, to the community, and to the welfare of the country. This assessment of Boston College is not imagined; nor

is it derived from sentiment. It is arrived at by what society as a whole thinks and expects from this University: by the ever-growing number of able students from all over the United States and from foreign countries who seek admission to Boston College; by the numerous demands upon the University for services to the public welfare and to national security through research, law, science, medicine, teaching, and in social work; and, above all by the careers of the Alumni and the demand for their abilities in the professions and in business, in the Armed Forces and in civilian life.

Many changes have taken place in the world since Boston College was founded in 1863. The subjects to be studied have also changed. But the way to responsibility, to wisdom and to vision has remained unbroken: the development of the intellect, an understanding of human values, an emphasis on moral and spiritual values and proper attention to the worth of the individual. These, then, are the traditions and the continuing commitment of Boston College. On the threshold of a second century, Boston College can look back on one hundred years of dynamic progress and achievement. It stands today recognized by its peers as one of the less than fifty "highly selective" universities of the United States, a great tribute to the skills, wisdom and dedication of its administrators.

However, Boston College is not looking at the past, but to the future. This University has outstanding talented students from all over the country. Under the leadership of Father Walsh, highly qualified faculty are being brought to this campus in order to provide a stronger and stronger educational environment. This University is meeting the demands upon it to increase its enrollment and to widen its field of activity *but* these are being accomplished at the same time that its efforts to increase the quality of its work are being crowned by success.

Foundations, government and industry have recognized Boston College and its faculty as a valuable resource for

many research projects. This past year, the University received almost three million dollars for varied research projects.

Boston College has been a leader in the university community in its effort to bridge the gap between the academic halls and the practical problems of government. It took courage and confidence for Boston College to take on this important task, and its contributions to the development of our community have been many and varied. All of us in Massachusetts are in her debt.

Finally the truth of what I have said here tonight to you—the Alumni and friends of Boston College—can be judged on the basis of this campaign and its outstanding success. Back in 1960 this institution made a very careful study of its total program and its needs for the future. An analytical judgment was made, based on all of the facts, that its objectives were sound and that its urgent need for financial support could be sold to the Alumni and to the community. The immediate urgent needs were set at fifteen million dollars. Now I have been in enough campaigns to know that the potential donors will not give and give generously if the institution or cause is not felt to be worthwhile.

What happened? The Alumni worked hard and oversubscribed its goal of seven million dollars—an extraordinary achievement for this University. Corporations, foundations, parents and individual friends of Boston College also oversubscribed their goal of eight million dollars. This total accomplishment is a remarkable one and its completion in a three year period should fill you with pride—not only the pride of a task accomplished well, but pride in what this success attests as to the respect in which your University is held by the community. People believe in Boston College and have faith in the role that this University is playing in the field of higher education.

Success in this campaign is making it possible for Boston College to take giant steps forward as it prepares for the heavy responsibilities it must carry in the years ahead. Under the proven leadership of the President, Father Walsh, and the others who so wisely have guided Boston College affairs, I am confident that Boston College's contributions to higher education will fully justify the support the University *has* received from you and the community and the support it *will continue* to receive as it moves forward along its well-chartered course. Your next step forward will bring further success in the Development Program if you continue the same kind of effort and tireless pursuit of your objectives. With the same sense of dedication and responsibility you have shown thus far—alumni and non-alumni—it is certain that Boston College will continue her role of excellence and leadership in this next phase and in the second century.

TO James F. Stanton '42, Chairman of the Alumni Division came the honor of announcing the surpassing of the Alumni goal in the Development Program. Mr. Stanton, a partner of Coleman & Sons Real Estate of Waltham has been involved in the campaign ever since its inception and has been one of its most tireless workers. The Alumni Association awarded him its McKenney Medal in 1963.

Three years in the hundred year span of a University's ex-

istence is short as measured by the calendar. Tonight I have been asked to present a thumbnail sketch of the Alumni part in the 100th Anniversary Development Program of our University. Let me say at the outset that I feel highly honored to speak in the name of the Alumni and I fully realize that any of the literally thousands who responded to Alma Mater's call to serve in the last three years might as fittingly present this report.

The initial announcement that Boston College sought \$15,000,000 by 1965 was greeted by Alumni variously with dismay—disbelief—and disappointment.

Those who were dismayed said, "We can never do it." The disbelieving said, "It's impossible in three years." Those disappointed said, "Why only 15 million. We should seek more."

Early in this campaign, heartened by the appointment of the Board of Regents, their many expressions of good will and generosity, their leadership of the business community and friends of Boston College in undertaking an 8 million goal, the Alumni became increasingly aware of the challenge which was theirs to also serve Boston College well. For the continuing inspiration, dedication and generosity of this Board, and you the friends of Boston College, we, the Alumni of Boston College, salute you and thank you.

We could spend many hours enumerating the names of those who served well, those who gave generously, those who did more than was asked. But you, Father Rector, more than any other President in the 100 years of our existence, know the Boston College Alumnus as he is. You know of his devotion and generosity.

Who is this Alumnus? He is here with us on this happy occasion or he is with us in spirit. For he has shared the dream of the Jesuit Fathers—he has done his part. He may be a priest of this Archdiocese, and from Cardinal to newly appointed curate, the Alumni priests have responded most generously. This Alumnus may be an accountant, a lawyer, a government employee, a doctor, a social worker, a teacher, a nurse. And I think all friends of Boston College should be pridefully aware that throughout the Alumni the vast majority lead lives devoted to the service of God and their fellow man.

This Alumnus has in his heart a particular appreciation of what was done for him in his four years at Boston College. Sometimes it expresses itself in a phrase: "The Jesuits taught me how to think." "The Jesuit and lay faculty of Boston College gave me an education that has stood the test of time." "I could never adequately repay the College for all it did for me."

I should here mention the youngest graduates of Boston College—the men and women of the classes 1960 through '64, who now constitute almost 20% of the Alumni body. How did they respond to Alma Mater's call? In one word—Magnificently! So magnificently that over 200 colleges and universities have contacted the development staff of Boston College with the question, "How did they do it? What is the answer?" The answer lies in their education and in the Greek words emblazoned on the shield of Boston College, under which we all fight the battle of life: "Αὐτῶν Ἀριστευειν" — Ever to Excel! I am happy to say that more than one-half million dollars pledged by these men and women as seniors is being paid on schedule.

Your speaker would be remiss in making this report in

not mentioning the Jesuit Fathers who served with us as area moderators, locally and nationally, inspiring the workers and working with them in their evening and Sunday solicitations. Truly the symbolized in concrete form the dedication of the Jesuit Fathers in the motto, "Ad Maiorem Dei Gloriam."

To the members of the development staff who confidently charted our course with such exactness and led us so skillfully that there could be no other result than success, we salute you!

Finally, each Alumni volunteer, forgetful of the countless hours involved and without whose labor of love this evening's affair could never have been held, now joins in one voice, "Hail, Alma Mater, thy praise we sing..."

The final report indicates that men and women of Boston College have responded to the challenge in giving this great University the largest amount ever pledged to a Catholic university in any campaign.

MEET THE REGENTS

Six corporation presidents, six board chairmen, three bankers, two retired senior business executives, three practicing attorneys, and one physician—this is the Boston College Board of Regents, the principal advisory board of the University since 1960.

"We are entering a decade of decision," asserted the Very Rev. Michael P. Walsh, S.J., President of Boston College, when the board was formed. "The decisions we make between now and 1970 will probably determine the course of our University over the next half century. To help guide that course and to enable us to meet the critical years ahead, we have named these business and professional leaders to the Board of Regents, the first such board in the history of Boston College."

Meeting several times each year, the regents advise university authorities on operations and on administrative policies for the twelve schools and colleges. Additional functions include short- and long-range planning for the expansion of physical facilities at Boston College and financing such developments.

Seven of the twenty-one regents are graduates of Boston College, and thirteen hold honorary degrees.

HENRY M. LEEN, prominent Boston attorney, has been chairman of the board since its inception. A 1929 graduate of Boston College and of the Law School, he was awarded an honorary degree in 1958. Mr. Leen is a director of the Old Colony Trust Company and of the Harvard Federal Savings & Loan Association. He is a trustee of Saint Elizabeth's Hospital and of the Boston Terminal Corporation.

JOHN B. ATKINSON was a member of the Board of Regents for nearly five years. We were saddened to learn, just as this issue of the Alumni News was going to press, of his sudden death in Spain while traveling with Mrs. Atkinson. He headed the Atkinson Shoe Corporation for many years as was a past president of the Alumni Association. In 1941 Mr. Atkinson became the first City Manager in Massachusetts, directing the municipal affairs of his native Cambridge for a dozen years.

ALLEN G. BARRY, president of the New England Telephone and Telegraph Company, was appointed a Regent of Boston College in February, 1965. He has been with Bell System since his graduation from Harvard University in 1928 and was named to his present position in 1963. Mr. Barry is also a Corporator of Suffolk Franklin Savings Bank and a director of the First National Bank of Boston.

WALLACE E. CARROLL, '28, is Chairman of the Board, American Gage & Machine Company, and numerous affiliated companies. He is president of the Simpson Electric Company and holds directorships in half a dozen American corporations, plus one in India and one in Japan. He is also president of the Boston College Club of Chicago. An active member of the Economic Policy Committee, U.S. Chamber of Commerce, since 1959, Mr. Carroll has participated in several trade missions to Asian and Middle Eastern countries. He received an honorary degree from Boston College in 1957.

RICHARD P. CHAPMAN is chairman and director, New England Merchants National Bank. He serves as a director or trustee for nearly a dozen business firms and banking institutions, and he is a corporation member of three Greater Boston hospitals. Mr. Chapman is a trustee of the Boston University Medical Center and of Wheaton College, and he serves as vice president, United Fund.

ROGER C. DAMON, a regent since 1960, is president of the First National Bank of Boston. Educated at Yale and at Rutgers University, he has been in banking since 1929. Mr. Damon is also president and director of First Small Business Investment Corporation of New England. His directorships and trusteeships include: Boston Edison Company, Raytheon Company, Charlestown Savings Bank, Old Colony Trust Company, Boston Overseas Financial Corporation, New England Mutual Life Insurance Company, The Children's Hospital Medical Center, and the United Fund of Greater Boston.

ERNEST HENDERSON, co-founder and board chairman for the world-famed international hotel system, The Sheraton Corporation, received an honorary degree from Boston College in 1959. He has been president of the Greater Boston Chamber of Commerce and a director of the United Fund. Mr. Henderson is also chairman of the board for the World Trade Center in New England and has been active in promoting international business for the six-state region.

THE PRESIDENT'S LETTER

TO THE MEN AND WOMEN OF THE ALUMNI

As this Alumni Year approaches its conclusion, the thoughts uppermost in my mind are those of gratitude for the high privilege of serving as Alumni President and for all the help and cooperation which I have received during the past two years.

The current Officers and Directors have been a most active working group on many projects beneficial to the Association. This is evidenced by the Self-Study Program which was the result of many months of work and which we hope will continue to be implemented. This year's Laetare Communion gathering was most successful. Alumni Day activity is being expanded with some modifications which we hope will make it more interesting and significant.

This year we have been especially fortunate in having an increase in the number of Class Representatives and this whole group has been exemplary for their great work on various Alumni events and activities.

We are all most grateful to the Staff for their willingness to carry on their usual projects and to work with us toward new goals. We look forward to increasing activities on the part of the Staff that will develop additional Boston College Clubs throughout the country. These organizations are most important as centers of information about the University and can be effective in interesting outstanding scholars in Boston College.

A committee of the Directors is studying the matter of improved physical facilities at Alumni Hall.

The women of the Alumni deserve our continuing thanks and commendation.

Nothing demonstrates more clearly the spirit of the Alumni of Boston College than Father Rector's report on Laetare Sunday that Alumni gifts toward the Development Fund Campaign have reached over seven and one half million dollars, the largest amount ever given to a Catholic university by its sons and daughters.

With renewed expressions of appreciation to Father Walsh, Father Sullivan, the Faculty and all who have helped so much in Alumni matters and Development and with every good wish to our new President, Charles F. Murphy '30'.

Sincerely,

B. C. CLUB NEWS

A NEW LOOK AT RECONSTRUCTION

by Thomas H. O'Connor '49

THE abrupt ending of the War between the States, after four long years of bloody struggle, followed so swiftly by the sudden and tragic death of President Abraham Lincoln, pushed the United States into the postwar years in a shocked and dazed condition. The problems which follow any major conflict are always complex and confusing; and those which come after a civil war which divides nation and families are even more so.

The era of Reconstruction in United States history is a fascinating study of a period which saw the people of the nation trying to regain their composure and equilibrium at a time when they were being beset with political, economic, and social changes of the greatest magnitude. The generation following the Civil War was one in which the whole traditional fabric of the nation was being torn apart: Political parties had been broken to pieces in the conflict and were endeavoring to reconstruct themselves. The Industrial Revolution was in full swing and was transforming the country into a major industrial power with social and economic ramifications which would be felt for the next hundred years. And the emancipation of the Negro had created another social problem which would add a note of hatred and bitterness to an already tense situation.

Americans are becoming now only too painfully aware that, as Lincoln said, "We cannot escape History," and they can see the value of having a more long-range view of current developments. A sense of History, an appreciation of perspective, is vitally necessary for the solution of current problems—or else the solutions we propose are only too apt to be naive, superficial, and totally inadequate.

It is for this reason, perhaps, that greater attention is being given to the problems of Reconstruction a hundred years ago, and to the issues which were left unresolved. There are already a number of excellent paperback works dealing with this aspect of American History, with the promise of more to come in the near future.

On the general topic of Reconstruction, there are available several older and classic works, such as William A. Dunning's "Reconstruction: Political and Economic" (Torchbook) which presents a strongly biased white version of the "Age of Hate," and W. E. B. DuBois "Black Reconstruction in America" (Meridian) which presents an equally strong case for the Negro cause. C. Van Woodward has, in more recent years, demonstrated the complexities of the postwar issues by emphasizing economic aspects in his "Reunion and Reaction" (Anchor) and in his biography of "Tom Watson: Agrarian Rebel" (Galaxy) which analyzes the agricultural problems of the postwar South.

Current writers continue to explore the many sides of the problem which Negro Emancipation posed for the nation, and some of the best works include John Hope Franklin's *Reconstruction After the Civil War* (Chicago) and Paul Lewinson's *Race Class, and Party* (Universal) which deals with Negro Suffrage and White politics in the South into the twentieth century. Still widely read is W. J. Cash's study of *The Mind of the South* (Anchor) which surveys the political, economic, social, and cultural impact of the South upon American life. Samuel R. Spencer, Jr., has produced a highly readable life of *Booker T. Washington* as part of Little Brown's Library of American Biography series, and a brief but extraordinarily complete history of the American Negro can be obtained in Rayford Logan's *The Negro in the United States* (Anvil) which not only provides a general history but which furnished many original documents pertinent to the question.

To round out the picture of the postwar years, Paul H. Buck's *The Road to Reunion: 1865-1900* (Little Brown) provides a stimulating work which analyzes the reasons for the reconciliation of the North and the South in the generation following the Civil War. Perhaps a closer study of those social, economic, and cultural factors which make for greater unity and harmony among nations might be one way in which to explore the possibilities of increasing the spirit of brotherhood among men.

Dr. O'Connor is Chairman of the History Department, Boston College. A member of the Massachusetts Civil War Centennial Commission, he is the author of Volume I (The Call to Arms) and the recently published Volume V (The Last Trumpet), the Commission's series of "Massachusetts in the Civil War." Dr. O'Connor has also recently published an American History textbook, "The Heritage of the American People" (Allyn & Bacon) with a foreword by Cardinal Cushing and a companion text "Sources of the American Heritage: Readings" (Allyn & Bacon).

Bishop ERIC F. MACKENZIE is an Honorary Chairman for the Fund Drive for the Newton Wellesley Hospital. He was Pastor at St. Paul's Church, Wellesley before coming to Sacred Heart Church, Newton Centre.

Father FRANK DOYLE for many years Pastor at Most Blessed Sacrament Church, Greenwood has retired because of ill health.

Albert Shaughnessy Jr. '49 is Comptroller of the American Bank Note Company in Baltimore. John Shaughnessy is in his second year at St. John's Seminary. They are the sons of our late lamented classmate ALBERT SHAUGHNESSY.

We were pleased to see ED SHARKEY at the Laetare Sunday Communion Breakfast. Ed returned from Chicago after forty-five years absence with the Pullman Company.

Our late lamented classmate PETER MCGRATH left two sons, Peter Jr. '45, Comptroller of the Connecticut Mutual Life Insurance Company, Hartford, Connecticut, and Stephen '51, who resides in East Hartford.

We heard in February of the death of FATHER IGNATIUS COX, S.J., at the Jesuit Novitiate and House of Studies in Poughkeepsie, New York, at the age of eighty one. A Solemn Requiem Mass was offered in the chapel of Fordham University where he taught Theology and Philosophy for more than forty-three years. Prior to that he taught at the College where he was one of our Professors for Freshman and Sophomore Greek and Junior History. May his soul rest in peace! He will long be remembered by us.

We sincerely regret to note the sudden passing on March 7, of Rt. Rev. Msgr. TIMOTHY C. GLEASON. Ordained October 26, 1913 with Bishop ERIC F. MACKENZIE and Monsignor BOB BARRY about seven months ahead of schedule due to the influenza epidemic, he served for eighteen years as assistant to Father Nicholas Murphy at St. Anthony's Church, Allston, and in 1949, after other assignments was named Pastor of the Church, fulfilling an oft-expressed desire. Pope Pius XII named him a Monsignor in 1955. A loyal and generous classmate, a devoted and zealous Priest and Pastor, he will be missed by many. May his soul rest in peace! Bishop MACKENZIE presided at the Funeral Mass and gave the final Benediction. Others attending were: Attorney FINNEGAN of Boston and Norwell, Dr. EDWARD A. SULLIVAN of Harwich Port, BILL O'SULLIVAN of Concord and JOHN KEOHANE.

The Class extends its sincere sympathy to the wife and son of our own JOHN B. ATKINSON who died suddenly in Spain late in April while on a business trip.

At our recent banquet at which twenty members of the class were present, it was voted to invite FATHER IGNATIUS COX, S.J. to our next reunion but we won't have that great privilege as Father Cox has been called to his eternal reward. Kindly remember him in your prayers.

FATHER "BILL" MURPHY, S.J., our classmate and former rector at Boston College, celebrated his Golden Jubilee as a Jesuit last September. Father Murphy will leave for Rome at the end of April as one of the New England Jesuits to the General Congregation called to elect a new General.

Kindly remember in your prayers our beloved classmate, "JOE" SHEEHAM.

I received word that FATHER GERALD FITZGERALD is traveling around the world, visiting the various houses of the Order of the Servants of the Paraclete, which he founded.

JOHN FLYNN headed a group somewhat smaller than the usual for the Laetare Sunday Communion Breakfast. Those attending were JACK DOYLE, WALTER DURRAN, TOM CRAVEN, BO MAHONEY, MAURICE MURPHY and CHARLEY SHARKEY.

JOE DEE, one of Alma Mater's most devoted and loyal sons, passed away on March 26. He is well remembered by those of his time at the Heights as an outstanding athlete when as quarterback he directed the first football team at the new facilities on Chestnut Hill and was catcher for four years on the baseball teams. His enthusiasm in and zest for competition in sports carried over in later life into the field of insurance. He played hard and clean all through life. He was admired and respected by all who knew him. He was indeed a happy warrior. A requiem high Mass was celebrated in St. Joseph's Church, Medford, by Rev. John H. Flynn, son of his classmate and life long friend JOHN FLYNN. Among the clergy present the class was represented by MSGR. FRANK MURPHY, MSGR. WILLIAM REILLY and FR. MAURICE DULLEA, S.J. Others in attendance were JOHN FLYNN, WALTER DURRAN, ROLAND MAHONEY, WILLIAM REID, FRANK HEAUNE, MARTIN HIGGINS, JOHN DOYLE, PHILIP DWYER, and TOM CRAVEN. To his wife, Helen, his sons, Joseph and Gerald, his daughter, Deborah and his surviving brothers and sisters the most sincere sympathy of his classmates is extended. May he rest in peace.

MSGR. ALBERT SHEA, because of poor health, has retired as the Pastor of St. James Church, Boston. After treatment in the N.E. Medical Center, he has been admitted to Holy Ghost Hospital, Cambridge, for special therapy. His condition has improved. It is our devout prayer that it will continue.

JOE NEVINS, retired coach and dean of boys at Newport High School for years, passed away last September after a long illness. Although he had not been able to attend our class activities for many years, he was not forgotten by the many friends he made while at the Heights. To his son and daughter the class extends sincere sympathy for their loss. May he rest in peace.

BILL REID's family has lost another

member when in February his wife's brother, Very Rev. Joseph A. Shea, O.M.I., B.C. 1928, Superior of the Oblates in the Buffalo area and Pastor of the Church of the Holy Angels, passed away. A Solemn High Mass of Requiem was celebrated by Bishop McNulty of Buffalo. The interment was in Tewksbury. The sympathy of the class is extended to the Shea and Reid families. May he rest in peace.

FRANK HEAUNE suffered the loss of his sister, Mary, in February. The sympathy of the class is extended to the members of the Heaune family. Frank has completed plans for his return to Ireland late in the spring and he will also visit on the continent. Have a good time, Frank, you've had a tough year.

RADO McKEOWN has retired as Post Master of Abington. Best wishes, Rado, have a good time.

DR. CY LYDON has retired from active practice of medicine. Although not quite as "chipper" as we are accustomed to seeing him he's coming along and is looking forward to joining with us some time soon.

BO MAHONEY, reports that his son, Thomas, ordained in the Columban Order a couple of years ago is presently assigned to the Church of the Blessed Sacrament, Westminster, Calif.

MAURICE G. MURPHY reports that son, Fr. Maurice D., is assigned to Church of St. John the Evangelist, Chelmsford.

MATT MEALY who has been retired from the Boston schools reports that son, Dr. Robert, B.C. '45, is a pediatrician in Raynham and is the father of three children; son, Richard, B.C. '52, is a supervisor with Algonquin Gas and lives in Dedham; daughter, Mary, married in Norwood. Matt sends best wishes to all the members of the class.

Young Dan has been a European representative of Goodyear, and will soon be headquartered in Paris.

Dan's address is 4227 South 35th St., Arlington 6, Virginia.

The sympathy for the family and prayers of the class are requested for our late beloved classmate, THOMAS A. PHELAN who died April 11th. Tom was B.C. all the way; his late brother Msgr. Francis was class of '13, brother Msgr. John, who said the funeral Mass, was class of '12 and son Tom, Jr. was class of '59. May his soul rest in peace.

Prayers of the class for and sympathy to the families of JOHN A. DUNN, who died February 4, 1965 and J. PAUL LYNCH, who died March 28, 1965.

May they rest in peace.
JOHN SARGENT who retired three years ago keeps busy as a radio ham and as a part time instructor in the radio and physics department at Chaminate Marianist High School in Mineola, Long Island. His son is in the senior class at the University of Dayton.

Had a reunion at the Laetare Breakfast with FRANK FRASIER, BILL CASHIN and CLARENCE GREENE.

DAN MURPHY has retired from the Federal Trade Commission, an agency he served since 1936. Dan's assignment at FTC since 1961 was as director of the Bureau of Deceptive Practices. Coming to Washington in 1935 as an attorney for the National Recovery administration, he joined FTC a year later as a trial attorney.

19 J. ROBERT ROLAND

10 Homewood Rd., W. Roxbury
At the Laetare Sunday Mass and Communion Breakfast the class was represented by FATHER ED. DOUGLAS, JOE DONOHUE, BILL O'CONNOR, TOM BROSNAHAN and FRANK ROLAND. FATHER MARTIN HARNEY was out of the city on a speaking engagement — hence was unavoidably absent.

Although 1965 is not one of our important anniversaries, it is hoped that many of the class will appear for Alumni Day activities. The membership is decreasing — let those of us who remain take advantage of this opportunity to meet! Tempus fugit.

20 J. ROBERT BRAWLEY

33 Pomfret St., West Roxbury
Here we are at that time of year that brings back memories of forty-five years ago, when one-hundred percent strong, the class descended on the Villa Napoli at Nantasket for its Senior Outing. This year, the surviving members of the Forty Thieves will gather, as many as possible at Alumni Day at the Heights.

Laetare Sunday found BOB PYNE, GERRY O'NEIL, JOE JOYCE, JACK SHEEHAN, TOM GATELY, JOE CASEY, BILLY BOND, DAN LUCEY, FRANK EARLS, and BRAWLEY in attendance.

A letter from FRED DOHERTY from Roanoke will tie up for our forty-fifth anniversary as well as the B.C.H.S. celebrations.

EDDIE HIGGINS asks for a rain check this June as he is confined to the Lemuel Shattuck Hospital but promises to be back with us in the fall. In the meantime he would be glad to see or hear from any of the gang.

TOM GATELY is retiring as headmaster of Girls Latin School this June.

On June 10th at the Sidney Hill Country Club, the faculty of Cambridge High and Latin School are tendering a reception and dinner to their retiring headmaster, our JACK SHEEHAN.

CHARLIE MCGILL, editorial page editor of the Post Publishing Company, was named as one of the three winners of the 1965 Connecticut Medical Press Awards.

Condolences are extended to the family of JOHN CLARK, who died April 22 in Lawrence.

Time is flying, fellows, so let's get together for Alumni Day.

21 GORDON F. IRONS

The following members were present: JOHN BURKE, LINUS CALLEN, ARTHUR DONOVAN, JOE DOYLE, JIM GOOKIN, STEVE GRIFFIN, FRANK HANNON, JOHN McGRATH, HENRY McNERNEY, JERRY MAHONEY, JACK MAHONY, RALPH MONKS, GENE O'NEIL, HUGH O'REGAN, MARK RUSSO, GENE SULLIVAN, JUDGE JOHN SULLIVAN, and GORDON IRONS. FATHER FRANK V. SULLIVAN, S.J., Faculty Advisor of the Alumni Board, sat at the head table.

We shall miss our faithful member, JIM

The sympathy of the Class is extended to MORGAN RYAN, whose wife, Eileen, recently passed away, and to LINUS ALLEN on the death of his sister, Mildred. Rev. JAMES P. DONOVAN retired as Pastor of St. Mary of the Angels, Roxbury on January 31. Fr. Donovan request prayers of his classmates on the death of his sister, Mrs. Margaret Mahoney who died on Good Friday. The sympathy of the class is extended to him.

22 NATHANIEL J. HASENFUS

15 Kirk St., W. Roxbury
Special delivery to FATHER JOHN CONNORS . . . now it is 15 grandchildren to the Hasenfus, a daughter being born to our Marie on March 20. On an automobile trip to California and way stations in December, I called on JOHN McKEARIN in St. Louis and on ARTHUR CUSICK in California. Both are well and are interested in hearing from class members. John has a fine family of four children, Jack, B.C. '50, now with Dupont in Wilmington, Delaware; Jill, Fontbonne College in St. Louis, married to John Parades, B.C. '50; Gerry, ex B.C.; and Kevin, Cardinal Glennon College in St. Louis. The McKeearins have 14 grandchildren. John, General Sales Manager of Laetare Gas Company, is looking forward to retiring and in returning to Boston. ARTHUR CUSICK is happy in government work in Blythe, California. He returns East every summer for his annual vacation. He reports that brothers Ed and Dick, whom we all remember so well, are in Memphis and Cleveland. Ed's daughter graduated at B.C. several years ago. It was good to see both John and Arthur after so many years.

The selection of MONSIGNOR CORNELIUS SHERLOCK as Vicar-General of the Archdiocese was a happy one for all concerned, not the least of whom are his classmates who rejoice with him on the appointment that was so well received everywhere. The new Vicar-General is an outstanding churchman, and his life has been a source of inspiration to us all from the time that he joined us as a freshman.

Several class members were seen at the Laetare Sunday Breakfast and Communion. Among them were ED MADDER, MATTHEW MALLOY, CHARLES COLLINS, STEPHEN VELARDO, WILLIAM WHALL, LEONARD HEALY, CHARLES McNAMEE, and FRANK DALY. BILL WHALL'S famous twins have been accepted at B.C. for the 1965 freshman class. FRANK DALY spent Easter week in Seville, Spain, where he visited to take part in the wonderful Easter ceremonies. Following this Frank visited Madrid, Paris, Copenhagen, London, and several cities in Ireland. JOHN HAYES, in addition to his partnership with brother Daniel in the Hayes Oil Products Company, is also spending much time in special duties at the Air Base in Limestone, Maine, where he has the very important assignment of keeping warm the thousands of airmen at the base.

It is sad to report the passing in mid-April of JOHN CRAIG, a lad who was dear to everyone who knew him. Of the four classmates who spent the summer of our junior year in Europe, John is the first to pass away.

AL CHAPMAN is living in the American Virgin Islands. FRANK DALY has retired from his assignment in Washington, and I alone am still bearing the burden and the heat of the day. Tempus fugit!

Met GEORGE KEEFE at the dinner to climax the First Phase of the Development Program. George has done yeoman service in the Springfield area. Met also Jimmy

O'Brien '21, track man out of Waltham, now of New Jersey. . . . Congratulations to TIMOTHY McNERNEY, one of the most generous of our class contributors. . . . WALTER MARKHAM, Massachusetts Director of Vocational Education, is in the news frequently. We hope that he is successful in his efforts in behalf of the Vocational schools.

Some time ago MONSIGNOR DOYLE made the poignant statement that class notes henceforth would contain notes of sadness. This issue is not devoid of illness and death. First, the beloved GEORGE WATSON passed away in January after a long illness. George was highly regarded by all who knew him from BCH days. . . . FATHER RICHARD MARIARTY celebrated the requiem mass for his sister, Mrs. Mary McCarron. . . . Two of our classmates have been hospitalized, DR. DANIEL McSWEENEY after a serious automobile accident on the Southeast Expressway that sent him to the Boston City Hospital, and HENRY FOLEY, who has been dangerously ill at the Peter Bent Brigham.

Have had letters lately from FRED NAUMETZ '43, All-American center on the 1940 Bow teams and outstanding professional national League player later. Fred is now Public Relations Director of the Phoenix Cement Company in Arizona.

23 MRS. FRANCIS L. FORD

9 McKone St., Dorchester
Laetare Sunday was a special day at the heights and due to efforts of CECE McGOLDRICK the following class members were in attendance: DR. ED. BURKE, TONY COMERFORD, WALTER DIMMOCK, ED DULLEA, TED GARRITY, CECE McGOLDRICK, DR. LEN MORRISSEY, CONNIE O'CONNELL, LOUIS TRACY, GAYNOR WELLINGS and our Secretary.

High out of 800 awarded in the entire country. Congratulations, Hugh is also one of the feature editors on The Eaglet, the B.C. High paper.

A recent announcement in the news recently was the engagement of Gerald F. Coughlin, son of our dear departed GERALD COUGHLIN to Miss Patricia B. Sullivan of Rahway, N.J. Miss Sullivan is a graduate of St. Elizabeth Hospital School of Nursing, Elizabeth, N.J.

We have word that LUKE SUPPLE is out of the hospital and is at home recuperating. Our best wishes for a speedy recovery is extended to him.

FATHER TOM LANE was over to New York recently and visited with DR. JOE DELANEY and AL BEDARD, and as always had a most pleasant visit.

John W. (Bucky) Warren, '33, Chairman of the testimonial opens the festivities of the "Evening in honor of John P. Curley"

JOHN P. CURLEY HONORED

Bill Gaither, Vice President of the Orange Bowl Committee, one of the many who travelled a great distance to pay tribute to John Curley, presents a beautiful watch from the Orange Bowl and a key to the City of Miami.

The "grand old gentleman," John Patrick Curley '13 of Boston College Athletics for nearly four decades was honored on April 19th with one of the finest testimonial dinners ever staged at McElroy Commons. Over 1000 friends of John P. turned out to pay tribute to one of the most personable and popular Graduate Managers in the history of college athletics.

The list of "greats" from the annals of Boston College

THE WOMEN'S RECREATION ASSOCIATION OF BOSTON COLLEGE

The student who chooses to come to Boston College, finds a many dimensional life with emphasis on spiritual, academic, and social activities.

One aspect of such a life, which has grown considerably in importance, is the physical education and recreational program for women.

The Women's Recreation Association of Boston College, commonly known as W.R.A., was organized in 1952 (with the opening of the first co-educational school on the campus) for the purpose of creating an interest in athletics among women students of the college, along with setting high standards and ideals of conduct and sportsmanship through athletics and recreational activities.

Under the capable guidance of Miss Theresa A. Powell, appointed Director of B.C.'s new Women's Physical Education program last September, the girls in the Schools of Education and Nursing have the opportunity to participate in a great number of varied activities.

The pretty and personable Miss Powell, an outstanding athlete in her own right and a holder of undergraduate and graduate degrees in Physical Education somehow fits into a hectic teaching schedule enough time to personally direct the girls in the following W.R.A. activities: Fencing, Figure skating, Golf, Horseback riding, Modern Dance, Rifle Club, Sailing, Swimming and Tennis.

The following is a brief report on Recreational-Athletic facilities for women students.

FENCING: Fencing instructor, Mrs. Lillian Aylward of Roxbury, New England Women's Champion 1963-64, has brought her young enthusiasts along quickly in a few short months. Recently, at the Fourth Annual New England Women's Intercollegiate Fencing Tournament with 15 colleges represented, Sandra Astuti—junior in the School of Education took third place in her division.

FIGURE SKATING: Figure skating for women students is a stimulating experience because it offers aesthetic as well as athletic values. Enthusiasm ran high and classes grew in size as the year progressed.

Mrs. Donna Fernald of Brookline, an outstanding figure skater, became the new skating instructor this year. The idea of forming a women's figure skating club, is now being contemplated and may materialize in the school year of 1965-66.

HORSEBACK RIDING: Horseback Riding is offered to the women and instructed by Tony DiBisce of the Golden Spur Riding School, Milton. For a small fee per lesson, transportation is provided to and from the campus—with the use of indoor and outdoor facilities.

GOLF: John Oteri, P.G.A., Pro of the Blue Hill Country Club, with assistance from Pros Jay Woodworth and Vinnie Del Zappo, brought to Boston College one of New England's most popular and successful golf schools. The main theme of the 7-week course is the development of sound fundamentals, which hopefully lead to a good golf swing and low scores.

SWIMMING: Swimming classes are held at the Brookline Recreational Pool under the supervision of Miss Mildred Crowley. On December 7, 1964, the girls competed in the Women's Intercollegiate Sportsday, held at the Waltham Boys' Club and sponsored by Brandeis University. With ten colleges competing, the B.C. mermaids came in second behind the girls from Radcliffe. Since there is very little intercollegiate competitive swimming in this area, the girls may go in for synchronized swimming, which is coming on strongly in the Eastern College and A.A.U. competition.

Life saving and Instructor's courses are also given to advanced swimmers.

The Women's Rifle Team, 1. to r.; kneeling: Grace Oberhauer, Mary Gallagher, Mary Sullivan; Standing: Anna MacDannell, Joanne Bran, Raoul St. Pierre, Coach.

RIFLE CLUB: This year the women's team has been firing with the men's team at our very fine rifle range, an R.O.T.C. facility, located in the basement of Roberts Center. Competition has been concentrated in two leagues; the Massachusetts and New England Rifle Leagues. Our coeds have proven to be masterful marksmen. The girls placed second in the Massachusetts League and fourth in the New England League.

MODERN DANCE: Mrs. Adele Kern, graduate of Sargent College, Boston University, is the Modern Dance instructor. The club has an enrollment of forty students from the schools of Education and Nursing and meets once a week on Monday afternoon. Women from all classes participate in the "limbering up" exercises,

the swings, turns, and jumps—all with a musical background.

TENNIS: The W.R.A. was fortunate to acquire the services of professional tennis players, Mr. and Mrs. Harold Soule of Medfield. Mr. Soule, a tennis star at Duke University, was recently selected for the Professional of the Year award, for outstanding contributions to tennis.

Mrs. Joan Soule, played for England on the Wightman Cup team and ranked 8th nationally in United States competition. She also teaches at the Brookline Country Club. When classes resume in September, they will offer a free tennis clinic and lessons will be scheduled twice a week.

SAILING: The women sailors of Boston College compete in regattas that are held at M.I.T., Dartmouth, Boston University, University of Rhode Island and Regis at Holy Cross. In Dec., 1964, they won the Women's College International Regatta trophy, held at Dartmouth.

Officers of the Sailing Club hold trophy won at the Women's College International Regatta, 1. to r.; Barbara St. Pierre, Pamela Haley, Katherine Hasey, Mary Correa and Commodore Janet Burke.

And now for the sad news: We learn of the deaths of three of our classmates—TIM TULLY, for years an English teacher in the Boston Schools died at Roger Williams Hospital in Providence, R.I. He had been making his home since his retirement in Johnson, R.I.

Father Bill served as an Army Chaplain and had served at Immaculate Conception Church, Malden, St. Ambrose, Dorchester and St. Ann's, Wayland. He will be sadly missed at the B.C. affairs.

FATHER EDMUND BARRY, died suddenly at the Veterans Administration Hospital, where he was chaplain since 1954. Father Ed had served at St. Joseph's in Kingston, St. Margaret's in Dorchester, as an Army Chaplain and later as chaplain at Veterans Hospital in Perry Point, Md. and Newington, Conn.

To the families of all three of our beloved classmates, we extend our sincerest sympathy and prayers for the repose of their souls.

Nichols College of Business Administration has just announced a Faculty Promotion to take effect in September for PAUL WENNERS. Doctor Wenners is now Chairman of the Management Department and Director of the College Evening Division, so can see this moves him "way up". The news came after we had gone to press so more details next issue.

Pray for the soul of Father JOHN TOBIN, S.J., our old Professor, always our friend, who for so many years celebrated the Annual Mass for our deceased.

'25 WILLIAM ARTHUR REILLY
14 Arborway, Jamaica Plain

Two committee meetings held during January and February brought together twenty-four classmates and current wives, to formulate a practical program for our fortieth anniversary of graduation. AL HYLAND was elected chairman and duly sworn in forthwith. Volunteer assistance was pledged by GENE GIROUX, RALPH GOOD, JOE BOND, JAMES (SONNY) FOLEY, WILLIAM GLAVIN, LESTER CALLAHAN, JOSEPH KOZLOWSKY, JOHN HANRIHAN, EUGENE GORMAN, JOHN COLLINS, JAMES CONWAY, PHILLIP CALLAN, JOHN MASON, JOHN O'KEEFE, GEORGE SMITH, GERARD SLATTERY, LOUIS WELCH, WILLIAM TOBIN, GERALD GRAY, and DANIEL A. LYNCH.

Regrets, but support offers came from Messrs. JULIAN, MAHONY, LEAVEY, O'NEIL, BRICKLEY, DONOVAN (Foxboro), MANNING, RYAN, FEENEY,

KOWALSKI, MELLEY, SILVIA, BROWN, MARR, McDONALD, MALONEY, CARROLL, MONOHAN, and D. J. LYNCH.

A special Committee will endeavor to keep "out of state" classmates informed and it is hoped that popular figures such as O'BRIEN, HAWLEY, BEATTIE, FITZGERALD, McGRATH, FLANAGAN, O'CALLAHAN, BROSNAN, COTTY, DILLON, the DONOVANS, TURBETT, SCULLY, ROCK, CONNOLLY, DELANEY, DILLON, FLAHEW, REV.'S CORMEY, GEARAN, REGAN et al., will be able to make "the sentimental journey" in June.

Perhaps the twenty-three clergymen classmates in the Greater Boston area may be assembled for a special meeting at the same time our "out of state" returnees get together. It is hoped that Msgrs. ARTHUR RILEY, JOHN BROWN, JOE BURKE, LEWELLYN CHADBOURNE, WILLIAM COLLINS, RALPH GALLAGHER, ED HARRINGTON, JOHN PARSONS, RAY HYDER, and JOHN CLARK will lead the way to the next issue.

With such support, we may have a total of one hundred at this our first fortieth reunion, and "demonstration" March.

First Aid stations will be established along the route for ambulatory participants, and floats may be provided for those in cages, and for wheel chair, stretcher or basket cases. Watasi dancing is not contemplated at this time. However, notice of other activities and dates will be forwarded at an early date. If you do not receive a notice it will be because your "last known address" is defective. A family Communion and breakfast under RALPH LEOD's expert direction is being planned for Sunday, May 16. Two classmates have offered "open house" cocktail parties on dates to be announced, and Alumni Day, Friday, June 4th, will be the big opportunity to meet friends in other classes—as well as your own.

Help is needed in order to locate some of our "missing persons." Send in to Al Hyland at 75 Federal Street, Boston, the present address of any, or as many, of the following as are known to you:

JAMES F. BRIDE, JOHN BROSMAN, DONALD F. CONNOLLY, LEO D. CROVIN, KENNETH J. DELANEY, GEORGE E. DEMPSEY, DAN DONOVAN, CLARENCE FLAHEW, GEORGE L. GRAHAM, BERNARD F. HAYWARD, HOWARD H. HEALEY, CORNELIUS J. HINES, FREDERICK J. LEARY, ARTHUR MATTHEWS, DR. P.E. MULLANE, JOHN A. MURPHY, THOMAS F. O'HANLON, THOMAS B. PHILLIPS, ARTHUR L. QUINN, THOMAS H. MURPHY, JAMES J. O'ROURKE, MICHAEL E. ROCK, JEROME W. ROCK, JOHN P. SAKAS, HENRY A. SCULLY, HARRY F. SMITH, LEO J. SULLIVAN, and HAROLD E. TURBETT.

Needless to say, all are welcome to attend alumni activities. The only cost will be the price of a ticket because the Development Fund has eliminated the need for class gifts as such.

So now as they have been saying on T.V. all winter, "Come On Down"—it's spring and we are all saying "Come on Back". It is 1965—"Come alive, this is a Pepsi generation."

At the Laetare Sunday (March 28) Communion and breakfast, sixteen regulars attended, namely AL HYLAND, JOE BOND, LAWRENCE BROWN, PHIL CALLAN, SONNY FOLEY, GENE GIROUX, BILL GLAVIN, RALPH GOOD, GENE GORMAN, GERRY GRAY, GERRY HAYES, JOE KOZLOWSKY, BILL MARR, JACK McDONALD, BILL TOBIN and LOUIE WELCH.

Did you notice STEVE PATTEN on T.V. starting the races at the K of C. Track Meet in January? He is known as the fastest gun since Hughie Duffy.

BILL TOBIN's son, a West Point graduate was recently decorated for heroism by the Vietnamese and American governments. Bill Jr. was wounded in action and received the Purple Heart, the Cross of Valor of the Vietnamese and the Bronze Star.

Speaking of the military—the first B.C. Graduate to become a line aviator—commanding Aircraft Carrier Division 18—anti submarine warfare units—is John Joseph Lynch—our Daniel J's brother. J. J. has received the Navy Cross for heroism in battle, the Air Medal for Meritorious Achievement, the Distinguished Flying Cross, the Legion of Merit and several other special recognitions for outstanding service. Dan, a man of achievement in his own right showed signs of heroism when he became President of the Middlesex Republican Club a few years ago.

ED BRICKLEY, Headmaster of Jamaica Plain High School was Guest Editor of a column in the Jamaica Plain Citizen during March. Ed has an A.M. from B.C., a Bachelor of Laws degree from Northeastern (admitted to bar in 1931) and a Master of Education degree from Boston State.

Your humble correspondent has begun to catch up with the older members of the class—by becoming a grandfather on March 14th. Application for admission to B.C. in 1981 has been duly filed.

'26 WILLIAM J. CUNNINGHAM, 40 Tennyson St., W. Roxbury

All of us are proud of the successful completion of the first phase of the Alumni Fund Drive, although quick to admit that some of us might well have done more than we did. After that tussle with Uncle Sam's minions on tax deadline day, we might just as well have given that extra money to Alma Mater as to Uncle; what say for the second phase?

We lead our notes with two obituaries, we regret. During March, we lost our distinguished Representative to the General Court for the past 18 years, TOM COADY. He was an old B. C. High boy, too. Tom leaves his wife Helen, two daughters, Mrs. Helen Leahy and Maryann; two sons, Joseph and Thomas F. Coady III and two sisters, Mary Coady and Mrs. Josephine Looney.

Within three days of Tom Coady's death, TOM HEGARTY of Somerville died in Mt. Auburn Hospital. Tom got a degree from M.I.T. after he left us, and was always a loyal 26'er. He, too, left a wife, Mrs. Edna Hegarty, three sons, Rev. Charles Hegarty, S.J. of Concord, Thomas E. of Davenport and Richard of Somerville, and two sisters, outlive Tom: Mrs. Nora Whitmore and Miss Helene Hegarty of Brighton and Tom's brother is Rev. Richard J. Hegarty, S.J., of the New England Mission Band. May they both rest in peace; we'll miss both of them. While on necrology, we hear with regret of the death of the man responsible for selling us our Class Insurance Plan, way back in that long ago, JOE DEE of 1917. He, along with FRITZ COSTIGAN and JOHN DOOLEY, made it successful. Remember that Alumni Day when John D. was recounting our early difficulties in knowing one another and told the audience "Fortunately, BILL DUFFY died and we were able to apply the proceeds of his policy to the unpaid premiums!"

John, as Director in the Boston School system, was very active in the Eastern Business Teachers' Association in April, in Boston. The lucky stiff got in a little time, too, at Southern Pines, practicing to collect

more nickels at golf from his less skilled classmates at the May 20th Outing at Wollaston. TOM CAVANAGH, ARTHUR MURRAY, CHARLIE SCHROEDER et ego, hope to be together there. That's a really great time, if you love golf.

Someone told me that LARRY "BOO" MCCARTHY, still the bach, has retired as assistant principal in the Peabody school system, under his pal ARTHUR BARRY. We didn't see Larry at Laetare Sunday at the Heights and we did not TOM COAKLEY, PAUL LEWIS, JOHN DORSEY, CHARLIE SCHROEDER, JOHN DOOLEY and his fresh from Puerto Rico spouse Anna, DR. ARTHUR GORMAN, FRANK "RED" RIHA, FRANK COBERT and JOE HUGHES, with nephew Walter Turley, one of my Roslindale High boys. Dool was rightfully proud of his B. C. degree-holders there; wife Anna, daughter Anna May Stephens with her husband, and John, Jr. I was also quite proud of my two degree-holders, Bill, Jr. and John. The other one, Paul, was in charge of the Worcester B. C. Club Laetare, and tripled the attendance over last year.

DR. HENRY GRODEN's daughter Kathleen was married on April 18 to John F. Meskell of Somerville; Meskell is a B. C. boy working on a Law degree at B. U. O. K., so the notes are brief; whose fault is it? We look forward to seeing you at the next opportunity. Be there, won't you?

'27 JOHN J. BUCKLEY

20 Bell Ave., Hyde Park
The annual Christmas dinner of the class was held on Dec. 28, 1964 at Alumni Hall. Twenty-seven from '27 were present which seemed appropriate. This was an especially good meeting enlivened by some mighty interesting personal views.

News quickies . . . TOM COUGHLIN on B.C. High track team (Tom Junior, that is) . . . DR. JOHN CARROLL's son planning lay apostolate work . . . JIM COTTER's son a field geologist at Tulsa . . . JOHN "REVERE" SULLIVAN on committee revising curriculum at Naval Academy . . . FR. JIM GEARY, S.J., now on faculty of B. U. School of Business teaching History and doing Counseling . . . BILL MARNELL's nephew, Captain Martell of the B.U. hockey team, gave our skaters some anxious moments . . . DAN O'LEARY was one of seven American college presidents who spent the Fall in Israel studying the Israeli school system for the State Dept. . . . One of Dan's sons now at Cornell Law School . . . Danno was guest of Bishop Wright at the Vatican Council and he met BISHOP JOHN COMBER in Rome while there for ordination of son of WALTER WALDRON . . . JOE MCKENNEY has a young daughter . . . MARY ANN TIERNY's daughter, Sally, in Newport in Navy nursing program . . . JACK DUANE's daughter at Vermont Junior College . . . Fr. Joseph Kelley, dinner guest of VIN O'CONNELL, gave an interesting talk about his 15 years in South Africa.

BILL FITZGERALD, Director of Libraries at Marquette, saw Bob Cousy's basketball team in action at the Wisconsin Tournament . . . Bill's eldest daughter married to a nuclear physicist and is living in Paris with her family . . . son Benedict Fenwick with the Defense Intelligence Agency in Washington . . . youngest daughter, Stephanie, finishing in May two years with the Peace Corps in Thailand.

FRED GANNON's son, Ted, a medical doctor with the Army in Texas . . . WALTER BOWLER with Western Electric Co. . . JOE BRUTON's son a graduate of Georgetown Medical as is Ted Gannon. MARTY GRIFFIN's daughter, Mary

Patricia, is a Senior at St. Elizabeth's College, Convent Station, New Jersey, majoring in English and looking forward to a career in the publishing business. Marty has been with the New York Telephone Co. for 36 years.

We regret to announce the deaths of three of our beloved classmates: VIN CAROLAN who died on Jan. 19, DAN HORGAN who died on Feb. 3, and JOHN "ASHONT" SULLIVAN who died on March 16. Vin had a distinguished career in the business world. Dan served in an executive capacity for 37 years with the Boston Schoolhouse Commission. John E., after serving with the New England Tel. and Tel. from 1930 to 1945, was an Associate Professor at Northeastern University's School of Business Administration. Pray for our departed brothers.

FR. JIM NORMILE, an Army chaplain since 1948, has been named pastor of St. Mary's Church, Georgetown, Mass.

HOWARD BUCKLEY was recently appointed Director of the physical plant at Boston City Hospital. Howard is a builder and real estate developer since the twenties, will bring a wealth of practical experience to his new post.

BILL OHRENBARGER had a really big night on March 31 at the Hotel Kenmore when he was named the Boston Gridiron Club's MAN OF THE YEAR. JOE MCKENNEY was Chairman of the event and JACK BUCKLEY wrote and led the parodies sung on the happy occasion. City leaders from the worlds of education religion, business, law, journalism, and sports showered our Bill with well-earned compliments. The 400 guests were deeply impressed by Bill's modest and sincere remarks. As Superintendent of the Boston Public Schools he faces problems of a nature and magnitude never encountered by his predecessors. Basking in the reflected glory of their distinguished classmate were: DR. TIM LYONS, MARTY TIERNY, VIN O'CONNELL, PRES. FRANK SULLIVAN, JOE MCKENNEY, JOHN DONAHUE, and JACK BUCKLEY.

The Class of 1927 was well represented at the Alumni Communion Breakfast on Laetare Sunday at the Heights. A quick poll taken at the breakfast would indicate that the men prefer a Sunday morning Class Memorial Mass rather than an evening celebration of the Mass.

Classmates outside of the Greater Boston area are urged to mail pertinent information to the correspondent.

'28 JOHN M. BARRY

40 Richmond St., W. Roxbury
We have been told several times that it's that time again, and this time it's O'C Murray and Thomas. O'C Murray's time for copy, his words are cold and final. He must have spent his formative years overseeing a Georgia chain gang. But that's how he turns out such fine issues of the Alumni News.

This April time of year is when Boston College begins to look as it should. Driving in from Commonwealth Avenue, the linden trees furnish just the right foreground for the Gothic architecture. On the other side of the campus there will be a new look this summer at Hammond and Beacon Streets. The newly completed dormitories are in graceful contrast with McElroy Commons.

There is always something impressive about the large number of Boston College alumni who attend the Communion Breakfast on Laetare Sunday, not only on the Heights but also at the club gatherings throughout the country. LUKE and I had the job of telephoning and reminding the men of 1928 of the date. Talking to them and their wives was a rewarding experience, and apropos 1928 wives, the men in this

have excellent judgment.

Perhaps we got all the names . . . JACK BARRY, DICK CONDON, GEORGE CORCORAN, JIM CURRAN, JACK DOHERTY, OWEN DOOLEY, BOB DONOVAN, MAURICE DOWNEY, JOE DOYLE, LUKE DOYLE, CHARLIE DRISCOLL, DAN DRISCOLL, DAN DRISCOLL, J. DAN DUFFY, JIM DUFFY, JOE FITZGERALD, MATT GALLAHUE, his wife and guests, WALTER GAUDET, TOM GEMELLI, MIKE GILARDE, BILL HARRINGTON, JOHN HALLIGAN, FRANK HERLIHY, JIM KEITH, JOHN KELLERHER, JOHN (EACAC) KELLEY, FRANK KENNEDY, TERRY MARTIN, DAVE LEAHY, JOE (LAW) McCARTHY, JOE McKENNA, FRANK MURPHY, VIC NEWTON, DOC NOLAN, ED O'BRIEN, JOHN O'LOUGHLIN, ALAN O'CARRELL, FRANK PHELAN, GENE FLOCIENNIK, JACK RYDER, NORM STEELE, ART TUOHY, BILL WALSH, ED WATSON. Apologies if I missed any.

Of those who are within reach of the college, I would estimate that about 75% were there on Laetare Sunday. That percentage of the Class of 1928 speaks highly of the stature of the men of that year. Several sent their regrets, MIKE DRUMMEY, GORDON LYNCH, PAUL HINCHY, KEN MINIHAN, PAUL McCARTY, JIM DALY, and GEORGE ALLEN.

The telephone calls brought a number of items, but this monkey-on-the-back job of writing a column has developed a certain cunning, so we'll hold some of them for the future . . . CHARLIE KELLY left his drug store for six weeks in Florida but the stalwart younger Kelly's (who are alumni of every Jesuit College except Baghdad) carried on magnificently . . . also in Florida Norwood's Dr. GEORGE ALLEN . . . when GEORGE CORCORAN and FRANK PHELAN booked cruises in the Caribbean, they had no idea they would be on the same ship. Also aboard was FR. JOHN KELLY . . . If you are interested in a late August tour to Central Europe, JOHN O'LOUGHLIN is arranging one. Call IV 4-5706 . . . So much for the travel department.

It was good to see FRANK HERLIHY, Sup't of Chelsea Schools. Frank, Jr. is at Suffolk University while Jim graduates from the Maritime Academy this June. . . That JOE FITZGERALD! The man never changes. Joe is highly regarded in the Wellesley School Department . . . I used to lure DICK CONDON's Ann Marie with chocolate cake so she would listen to my tall stories about her father but she walks on the other side of the street now . . . TOM

GEMELLI is a grandfather for the first time. Tom, Jr. a fine, rugged boy.

And Laetare Sunday brings to mind a survey of the student body religious habits in a recent issue of the Heights. Let's see . . . so many are unmoved by Jesuit religious training . . . so many do not want an annual retreat . . . so many want fewer courses in Theology. Well now. We want to keep the younger generation happy, don't we? I am going to form a committee (I have an urge to picket somebody) to depose the Jesuits. So, Fr. Rector had better be prepared. Instead, we'll wheel in a rousing, old-fashioned type of gospel shouting revival meeting. There will be shallow faced, long haired females moaning folk hymns, and cadaverous, bearded guitar players while the students sway and clap hands.

With all the imposing facts in the Heights survey, it seems odd that the three mid-day masses in St. Mary's are crowded to the doors.

ED O'BRIEN's son, Robert, a Jesuit scholastic, is back at Weston after advanced study for a doctoral degree in nuclear physics at St. Louis University . . . PAT McDONOUGH is recovering nicely after a car accident . . . FRANK KENNEDY's son, John, is a freshman at Merrimack.

There has been so much written about the reluctance of bystanders to become involved in the troubles of others that this may be something of a reassurance that it is not a universal condition. There were six of them together one evening—three men of this class and their wives. And the talk swung to the frightening plight of so many young children in Roxbury who begin school with no understanding of the simplest concepts and terms, who sit in the kindergarten dull and untouched by basic words, who are destined dropouts before they enter a school building. Those six persons talked and then agreed to do something about it. They were not going to stand on the sidelines. They decided to go into Roxbury and do some work.

They went through no formal channels; they asked help from no one. But getting into the deep poverty families they wanted to reach wasn't easy. As is understandable, they met indifference, apathy, suspicion and open antagonism. All of these they expected, but they persisted. And they made slow progress. Each husband and wife made themselves responsible for two, and then three, families of children. The men studied with the older school children, while the wives worked with the pre-school children and taught them the meanings of the simplest words—round, smooth, red, high, kind-

ness, light—so many terms these children could not understand. They took these small children to the Public Garden and rode the Swan Boats; they went to Castle Island and talked about ships and the ocean; they visited the Zoo, and the children watched the animals and birds. All this time they talked to them, and after a while these children who had never had adult attention began to talk and use words they hadn't known before.

That was three years ago. Those children have entered school. They are doing well in classwork and they have a future. And these men of 1928 and their wives are still working in Roxbury.

No. These people didn't stand on the sidelines and watch.

The fathers of JOE DOYLE and LUKE DOYLE died within the year. And it is equally sad to mention that two of the Class of 1928 died in recent months, ANDY SULLIVAN and JOHN MCGILLIVRAY. It was only last summer that we sympathized with John when his wife, Virginia, passed away.

Requiescant in pace.

DAN DRISCOLL was elected President of the Charitable Irish Society at their 228th Anniversary Meeting on March 17. This is the oldest Irish Society in America founded in 1737.

Once more your prayers are requested for three of our number who have died since Christmas, Father FRANK DINAN, Father JOE HALEY (Pat) and TOM SMITH whose son is a recent alumnus. Our sincere sympathy to their dear ones, and to Leo Shea and his sons and daughter on their loss of a wonderful wife and mother within the month. Glad to hear that BILL WALSH has responded to your prayers and is coming along nicely after a heart attack.

VIN ROBERTS and Peggy are back from escorting their younger daughter, Sister M. St. Vincent of the Sacred Heart of Jesus, of the Poor Clares, to her new convent in Japan. HENRY LEEN, just elected president of United Community Services. JOHN and Mary MUNGOVAN are in Tallahassee, Florida to see John the Younger receive his M.S. in Social Work with distinction, from Florida State. Speaking of travelling had a very interesting letter from PHIL RYNN, who can be reached through 221 Castle Road, Nahant. Phil alternates between his two professions, moving picture expert on Far Western locations and skipping the Woods Hole Oceanographic Institute's exploration ship. Hope he can get to one of our meetings to recount his adventures. Just missed Dr. RUSS CAHOON in New York last Thursday at 111 West 50th St., Lederle Labs. of American Cyanamid Co. DON MacDONALD recently became president of the Catholic Teachers Assn. of the Diocese of Rockville Centre. ED MURPHY's Elizabeth Ann, a Master's Degree candidate at B.C. School of Social Work will become Mrs. Laurence Hunt in October.

We are most grateful to those of the class who so generously chipped in to replenish the class treasury, depleted to almost zero by our gift to Father JOE CONNELL. Had a fine letter from JOHN CRONIN, who is Field Executive for National Association of Real Estate Boards and lives at Box #207, R.R. #2, Owings Mills, Maryland, 21117. John hopes to be in Boston soon. Hope you may see him. Hope we may see many of you at our annual dinner in late May at Alumni Hall as we saw a good number at

We ask prayers for the repose of the soul of Rev. JOSEPH ORPEN. Father left after Sophomore year and was ordained for the diocese of Seattle, Washington. We offer our best to Monsignor JOHN SHEEHAN, also from the Faculty of St. John's Seminary, who is the Pastor of St. Paul's Parish, Hingham.

Monsignor RUSSELL COLLINS, also from St. John Seminary, now heads up the special work being undertaken by the Archdiocese in the Southend and Roxbury. (As you can see, this class report will be strictly of the clergy if you fail to send me any News items. Please let me know "what's new".)

Had a very pleasant evening with Doctor ED FITZGERALD and Father CHARLIE ANADORE at a recent meeting of the St. Luke Guild, at Carney Hospital. Ed is on the Surgical Staff at Carney. MILTON BORNSTEIN has completed construction of a new plant in Chelsea for his burgeoning business, The Sweetheart Paper Products Company.

JOHN GRIFFIN, TOM KELLY, DAN HOLLAND, ED SULLIVAN and MIKE COLLINS comprised the Laetare Sunday Communion Breakfast Committee and did a more than creditable job. The 1935 showing at the breakfast on March 28 was one of which we can be proud.

Twenty eight of the 1935 faithful met at a dinner meeting February 24 to discuss and formulate plans for a couple of wing dings to celebrate our 30th anniversary.

One of them held at Dr. HANK GRODEN'S on Saturday night, April 24 which was truly fortissimo. Succulent and plentiful buffet and a jazz combo which didn't have to doff its bonnet to anything in St. Louis' Gaslight Square.

BILL GIBLIN sent a cable from Mo- aco with greetings and wishes that he could be with us. I don't blame him.

There'll be other doings for our 30th, of which you'll be apprised by mail. Hope to see you all on Alumni Day!

This year will be the twenty-fifth anniversary of Monsignor LARRY RIELLY & REV. JOHN J. MAGUIRE'S ordination to the priesthood. I am sure the entire class extends very best wishes and congratulations on their silver anniversary.

In January, former Governor Peabody became associated with the law firm of former class president, FRED ROCHE.

Dr. JIM O'LEARY was appointed chairman of the Framingham Board of Public Health.

A splendid spring sale was held at St. Joseph's Rectory on March 16, 1965 where MONSIGNOR JOHN QUIRK is pastor. Beautiful slides were shown by BILL DOHERTY and JOHN BONNER with expert narration by DELLA BONNER and MONSIGNOR BOB SENNOTT. Refreshments were handled by the many wives that attended and left in the few hours of the morning asking the same question, "When are we going to meet again?" A special thanks to Ann and GEORGE CURTIN for their assistance. Ann and George took a trip to Bermuda after the sale. Likewise, DR. and Mrs. FORD. Among the many couples that attended this recent social were: THE CURTINS, COVENEYS, SAINTS, SANFORDS, FEENEYS, HIGGINS, BONNERS, TIM SULLIVANS, BURGESS, D'URKINS, McDERMOTT'S, DEMBROWSKI, GRAHAM, MONSIGNOR QUIRK, MONSIGNOR SENNOTT and YOURS TRULY; a special guest was Eleanor O'Brien. Thanks to Monsignor Quirk for his gracious hospitality.

Speaking of some of our class buddies: DANIEL J. GOGGIN of 2844 N. Thompson Rd., Atlanta, Georgia has been a City Council member for 6 terms in Atlanta. He is in the industrial waterproofing business after being a manufacturing representative for many years after he left our Alma Mater.

Our class is well represented in the United States Joint Chiefs of Staff in the person of Capt. CHARLES IARROBINO from Washington, D.C.

Likewise, we heard from JOE RICHARDS and JOE GORMLEY both from Washington, D.C. They want to be remembered to all their friends.

A special bouquet is directed to GEORGE CURTIN for his work on the Building fund drive. Two of our classmates will be on the Alumni ballot this spring, namely: GEORGE CURTIN for Director and TOM GAQUIN, a candidate for the Athletic Board.

CHARLIE FALLON is the Chairman of the Alumni Golf Tournament this June.

MONSIGNOR ROBERT SENNOTT will be a Silver Jubilarian this year on his 25th Anniversary as a priest. I am sure that all of us hope and pray that he will have many more fruitful years as a priest of God.

REV. JOHN KIELTY of Watertown is inviting us to spend a Sunday at his parents summer cottage down the Cape.

There were the usual same faces at Leatere Sunday: TIM and Audrey GAQUIN, CHARLIE FALLON, TOM McDERMOTT, JIM DINEEN, BILL DOHERTY, JOHN BONNER, BEN HINES, GEORGE CURTIN, JACK BARTRETT, FUZZER FITZGERALD, ED PHILLIPS and YOURS TRULY; also MONSIGNOR JOHN QUIRK who sat at the Head Table.

JOCKO CONLON has moved to Morristown, N.J. JIM DOHERTY, the Insurance Executive from Andover has been busy with his duties as Chairman of the Andover Recreation Committee. I often hear from JOHN FEENEY, Chief Probation Officer for the Boston Municipal Court in his many communications with my school. ARTHUR DURKIN's oldest daughter will graduate this June from the Newton College of the Sacred Heart with high honors. I hear she will attend the Harvard Graduate school. TILLY FERDENZI has resumed his duties as sports writer for the New York Journal American. He covers all the Yankee games. DICK O'CONNELL, the busy Vice President of the Boston Red Sox is off to a good start this season; likewise, we hope that BILLY SULLIVAN of the Boston Patriots will have another successful season and we hope he enjoyed his golf season in the Carolinas. We hope he comes up with the plans for the new Stadium this fall.

We are all glad to report that Audrey Gaquin had a quick recovery. ED PHILLIPS' mother is home from the hospital.

JIM GILDEA of Watertown has been a member of the Board of Assessors for many years. FRED GORGONE is a very popular and efficient principal in the Wellesley Public Schools.

Your correspondent is grateful for the many kind expressions of sympathy he received on the recent loss of his mother; likewise, Msgr. Quirk on the recent loss of his Aunt that lived with his family.

B'cing you soon.

Our Class had one of the best representations of non-anniversary classes at this year's Leatere Breakfast. DR. DICK STANTON,

a director of the Alumni Association sat at the head table. Those gathered at the '38 table were JIM REGAN, PAUL DONAHER, Chief Counsel for Factory Mutual, and Paul, Jr., FRANK FINNIGAN, BOB CURTIS giving out valuable insurance and investment advice, JACK GUTHRIE now sales manager for Burbank Co., an investment firm, FRANK TOOMEY, JOHN MARSHALL, JOHN CASTELLI,

Classmates Dick Gill and "Kochi" Yokoyama meet in Tokyo after 26 years

DICK CANAVAN, BILL FINAN, a member of the breakfast Committee, and PAUL FARRELL. Despite the beautiful weather we had three golfing buddies—JOE HARTIGAN, BILL PRIOR and JIM CASEY with his son. Also PAUL MULKERN, HENRY DEAN and his son, JIM DAILEY, JOE MARSHALL and TOM TRUE. GERRY JONES is personnel manager for Hardware Mutual Insurance Co.

JACK GUTHRIE informs us that there still are a few copies of our SB Turri available. Send \$10 to JIM DAILEY, 55 Bright Road, Belmont. Proceeds will be put into our class treasury.

The sympathy of the class is extended to FATHER JOE KEANEY, S.J., Principal at B.C. High whose father passed away recently. The class secretary has joined our growing list of grandparents. DR. BILL LYNCH delivered his daughter's baby girl April 1 this year. Although we missed it in the daily papers, someone mentioned at the Communion Breakfast that Dr. Lynch's father had passed away during the early part of the year. To Bill our sympathy.

Brigadier General BYRON LEARY, U.S. Marine Corps, was the guest speaker at a recent Holy Name Communion Breakfast. The advance publicity stated that he had headed the United Nations Truce Supervisors relative to the organization of Palestine. He was also present during the Suez Controversy and is highly regarded as an advisor and expert on the Middle East.

BUD DAVIS has a son at Northeastern and a daughter studying nursing at the Catherine Labouré School.

We met Fire Dept. Chaplain Monsignor JOHN McMANMON at a general alarm fire in downtown Boston recently.

Among the hockey fans at the BC-BU game at the Arena were JACK SULLIVAN, a member of the Arena Authority, FRANK GLYNN, JIM CASEY and BILL PRIOR.

Last November our DICK STANTON received a most interesting letter from DICK GILDEA, now COL. US Air Force, stationed at the ENT Air Force Base in Colorado. In the letter Dick described his meeting with KOKICHI YOKOYAMA in Tokyo where Dick attended the Olympic games. Because the letter brought back so many memories of days at the Heights for men of '38, we are printing excerpts here-with.

"Dear Dick, Hope you received my card from Tokyo. In it I promised to tell of my visit with Kochi. It was a most interesting experience on which I would like very much to have shared with my classmates.

However, I guess this letter will have to substitute. I skipped going to the Stadium one morning and decided to visit Kochi instead. After entering an impressive ground floor office I was escorted upstairs, where Kochi soon came out and said first, "Your hair used to be red". It was difficult to realize that it had been 26 years since he had last seen anyone in our class. He operates a business manufacturing starch, and after a short conversation, he invited me to his home for dinner the following evening, then escorted me to a cab and directed the driver to the Stadium, which saved me what could have been a lifetime cruise.

The evening, in a beautiful limousine, we went to an elegant restaurant, the Tohiwa, where we dined and were entertained in typical Japanese style. At least ten lovely young ladies sang, danced, acted both tragedy and comedy, cooked our food, entered the conversation for the sole purpose of making our evening enjoyable. Kochi is an excellent interpreter and no longer has the language difficulty that he had his first year at the Heights.

The most memorable part of the evening occurred when one of the young ladies entered, bowed to the floor as they all do, and placed a copy of our '38 SB Turri on the table. I described to Kochi as best I could what had become of our classmates, which was quite difficult, since I have not lived in Boston since 1941. He asked for many of the class; particularly Dick Stanton and Warren King.

The following evening after the Games, I went to Kochi's home where I met his fine family; his wife, the wife of the two boys and daughter. His eldest boy was born in Los Angeles, has a golf handicap of 7, is a graduate of Keyo University and plans to attend a graduate business school in the States. The other boy, also a graduate of Keyo, is the National Student Riding Champion of Japan, with a roomful of trophies to show for it. The girl attends Sacred Heart College and is temporarily employed in the Olympic village. Of interest to the times, with the Games in progress was the fact that Kochi's wife's father is President of the Japan Olympic Committee and was the first speaker at the opening day ceremonies. It is a position of great honor, of which the family is justly proud.

After a typical Japanese dinner, cooked by Mrs. Yokoyama, we enjoyed an interesting evening discussing many subjects. Kochi had some fine pictures taken years ago at B. C., Cape Cod and other places in New England. He had gone to Georgetown after leaving BC, a fact I did not know. Time passed all too quickly. Kochi presented me with a thoughtful gift for my "number one daughter" and agreed to be my guest a few nights later at the U.S. Officers Club in the Hotel Sanno.

We said goodbye this evening and I promised to pass on Kochi's regards to all our classmates. No doubt he would enjoy hearing from many of his friends. I've written the address so that there will be no doubt: Kokichi Kokoyama, c/o Sanmatsu Kogyo Ltd., 13 Iwamoto-cho-Kanda, Chiyoda, Tokyo, Japan. Best Wishes, Dick."

Last issue it was stated, with the cautious candor characteristic of this corner, that Colonel JOE QUILTY, USMC, was seen heading for the Dominican Republic. It can now be confirmed that he made it, and that he is in the U.S. Military Assistance Group there, based at the American Embassy. One of Joe's three daughters attends school in Toronto, P.Q., Canada, his other

two, also in school, are with him in Santo Domingo.

Earlier this year we learned that, barring emergencies, HAL LANGLOIS, was planning a two month trip to Europe. Emergencies can be serious in Hall's field, as he is Warden of the Adult Correctional Institutions at Howard, Rhode Island. He is President-Designate of the American Correctional Association and will be President of the Congress of Corrections in Baltimore next year. He has four children, the oldest is Harold V., III a junior at the University of Rhode Island.

While shooting the budget on air-mail stamps we found that PAUL DUNIGAN is still District Commissioner, Richland, Washington District, Blue Mountain Council, Boy Scouts of America and, obviously in line with our less sophisticated days, starting a dynasty because Paul, Jr., is an Eagle and an Explorer Scout. For income purposes Paul works for Battelle Memorial Institute which took over General Electric's Hanford (Atomic Energy) Laboratories. He is Manager, Facilities Operation, and directs a multi-million dollar landfold type function for the Institute.

Everyone is a specialist these days. FRANK GAFFEY, for example, is the San Francisco Soft Water Company, an independent organization selling, installing and servicing soft watering, correction—water softening equipment. Frank is married and lives in Daly City, California. Also from the Trans Mississippi West, we learn that baby Colleen Patricia arrived in the RAY COYNE household in South San Francisco last December, boosting the youngest total to five. Ray's two older girls are in college on scholarships, another daughter and his son are in high school. Ray is teaching contracts, conflict of laws, and labor law at the University of South San Francisco and is also Placement Director of the Law School.

Among the Faithful Followers, Hockey Div., have been GEORGE NORBERG, of course, whose boy, Joe, played freshman hockey at The Heights this past season and JOHN T. CROWLEY, who also participates in the youth rehabilitation programs of Cushing Hall, Inc., formerly the Catholic Boys' Guidance Center. Jack, in his 26th year with NE Tel. & Tel., is Supervisor of Revenue and Toll Estimating and daughter Patricia will be graduated shortly from Saint Elizabeth Hospital School of Nursing. Another McHugh Forum rinkside habitue, FRANK BRENNAN, last year coached a Winchester Pee Wee Hockey League team. Frank, a faculty member at the Graduate School of Savings Banking at Brown University, is President of Union Savings Bank, Boston, which has just completed the most successful year in its history.

The second generation of Thirty-Niners is really rising. MARTIN HENNEBERRY has one son a sophomore in A&S at The Heights and another enters the College of Business Administration in September. JOE SAMMARTINO's girl, Mary Ann, is an Economics major at Regis and a member of Pi Gamma Mu, the Social Science Honor Society. Joe, Jr. is a freshman at Holy Cross. ANDY O'BRIEN's daughter Kathy, graduated last year from the BC School of Nursing, is working with the Lay Apostolate in Alaska and Andy, Jr., completes his last year in the College of Arts and Sciences this June. WILLIAM FORD is Assistant Superintendent of the Kenmore Square, Boston, Post Office. Walter, Jr., a sophomore at the College of Business Administration.

Junior High in South Weymouth and a director of the Massachusetts Teachers Association. ED BUXTON is salesman for Revere Sugar, servicing industrial accounts on the South Shore. LEO CAPLICE, Business Manager of the Medical Department at Massachusetts Institute of Technology, is Secretary of the New England Section of the American College Health Association. JOE MARTIN has forsaken chemistry and is now a physicist at National Research in Cambridge, Mass., and busy on one of those NASA projects no one can ever find anything out about. JOE HAMMOND is District Agent for John Hancock Insurance Company in Braintree and a quite active Executive Board member of the local International Insurance Workers Union.

DR. FRANK McDERMOTT of BC's English Department will be busier than ever, come June, just swapping hats. He has been awarded a Summer Research Grant by The College and will also, as Colonel, USAR, be a Staff Member and Director of the Military School Officers Reserves Course at the Army Command and General Staff College, Leavenworth, Kansas. DR. JOHN DONOVAN, whose *The Academic Man and the Catholic College* was recently published (Sheed and Ward, \$6.), has been awarded a Sabbatical by The College. FRED MOLLOY is teaching in Boston and is Lieutenant Commander, USNR, in the Shipping Control phase of the Navy's activities.

Make plans now to attend Thirty-Niner's First Annual Reunion (second series) on Alumni Day, June 4. You will hear more about this.

Let us also remember in our prayers FRANK LOWRY, steady classmate and wonderful father to nine children, who died in March. Requiescat in pace!

Gone, but well remembered, is the Sports Night which Belmont JOE McKENNEY and his committee staged at Alumni Hall. A tribute to their hard work was the large turnout in weather that made Home Coming Day's storm look like a heavy mist. Highlight of the affair was DAVE LUCEY's story hour which added considerable to the Gil Dobie legend JACK

O'DONNELL at the piano took care of the music for the evening. The presence of faculty members Father John O'Callaghan, Father Martin Harney, John Norton, and Paul Boulanger added to the night's enjoyment. Nice to see among others JACK MORRISSEY, TED HEASLIP, BOB MCGEE, TOM DUFFEY, BOB McGOVERN, FRANK GALLAGHER, FATHER CY TOLLAND, SHERMAN ROGAN, BILL GRIFFIN, FATHER JOE SHEA, and FATHER CHARLIE MCCARTHY. Long distance honors for commuting went to PAUL DUFFEY who flew in from Philadelphia.

Thanks to TOM CUDMORE'S generosity, OWEN HILLBERG'S drive and SHERMAN ROGAN'S persistence, the class turnout for the Laetare Sunday Breakfast was most gratifying. BILL JOY added to our prestige with a commendable performance as Toastmaster for the occasion. Helping to swell our numbers were JIM THOMPSON, FRANK HASSEY, ART CULLEN, JACK MORRISSEY, TED HEASLIP, BILL KELLY, DICK WRIGHT, JIM SUPPLE, ALBIE KEOUGH, BOB TILLEY, OWEN HILLBERG, DAN GRIFFIN, SHERMAN ROGAN, BOB McGOVERN, BOB HEALY, JACK O'HARA, BOB POWER, ELMORE CAMPBELL, and you, your correspondent. Also present, and a most welcome surprise, was FATHER PAUL NASH, recently returned from Baghdad, Iraq where he is teaching at Al Hikma alongside classmates FATHER JOHN BANKS, FATHER BILL LARKIN, and FATHER ED BANKS.

If our litany of classmates seems to turn at times towards a clerical roll call, we're proud of it. No less than forty-one members of the class are now members of the clergy. Their posts range from Baghdad to California to embattled Korea and Vietnam. Impartial too, are they in their choice of community. Jesuit, secular, Paulist, you name it and they are there. Teachers, writers, preachers, chaplains, administrators, and parish priests, they could form their own little Yellow Pages.

Still in the ecumenical movement, we looked back to what was a monumental first for the class on the evening of May 5th. That's the night the class sponsored a lecture here on the campus at the Baptist Library. Guest speaker is the eminent George H. Williams,

Hollis Professor of Divinity at Harvard University. Subject, "Christian Unity in Historical Perspectives: Viewpoint of a Protestant Observer at the Second Vatican Council". **MONSIGNOR BILL GRANVILLE, BOB O'MALLEY, and ED BARRETT** were the guiding hands in this venture.

For the gay blades, the young at heart, and second honeymooners, **TOM CUDMORE's** upcoming week end at **Wianno down Cape Cod** way looms larger and larger. Festivities begin on Friday, May 28. For the golfing buffs, those lush fairways and soft as velvet greens are something to see.

Mention golf and you just have to say **PAT RAFFERTY** in the same breathe. The former Brightonite, now a resident of Kingston, is with **National Securities and Research Corporation**. Pat is Vice-President in charge of New England Sales. Always a top notch golfer, he is currently holding a ten handicap card. Anyone for tennis?

Finally caught up with **WALTER BARRY** out in Dover. He's associated with **Fenwal Incorporated** handling legal and financial matters. Now, where is his buddy **Dorchester FRANK CARROLL**?

Old faithful **TED HEASLIP** cut short his vacation at Ft. Lauderdale, Florida so he wouldn't miss the Laetare Breakfast. Or was it just to make us envious of that terrific tan?

One of the men behind the scenes in the face lifting job going on in Boston is **BOB McGOVERN**. Now living in Jamaica Plain, Bob is a real estate appraiser for the Boston Redevelopment Authority.

Remember those sailing days on the Charles with West Roxbury **JOHN GOODMAN** as skipper? No room in the boat now because Johnny has his own boatload, ten little Goodmans. John and wife Barbara have moved their brood up the pike to Wellesley from where Daddy commutes to his dental practice in neighboring Natick.

ED CAMERON is with the Department of Public Works as a Civil Engineer operating out of Nashua St. in Boston. Makes his home in Raynham where he is a member of the Raynham School Committee.

BOB MAGWOOD has added the MD to his name and is a General Practitioner in his home town of Somerville. He is also a member of the medical staff at the Carney and Somerville Hospitals.

FATHER JOHN PHILBIN, formerly a curate at Our Lady of Lourdes, Brockton, is now at Holy Name Church, West Roxbury. Father John is the man behind the scenes for the outstanding Holy Name Bands which he serves as Spiritual Director.

That name Kelly which appears in a double column ad in the Alumni News offering insurance assistance and service belongs to our Bill who commuted to The Heights from East Boston. Bill now resides in Milton. Recently voted to the Million Dollar Round Table which is the Hall of Fame for those in the investment and insurance counselling business.

LEO CAMPBELL who deserted Brighton for the hills of West Medford is now in that elite class of businessmen, those who speak of data processing as an everyday way of life rather than a science project. Leo is associated with **Jackson & Moreland**, Engineer specialists in Data Processing. Has his office in the Park Square Building, Boston.

DAN GRIFFIN once decided to travel from Cambridge to North Andover, and liked travelling so much that he has refused to give it up. He is now a travelling freight agent for the Chicago, Burlington and Quincy Railroad.

FATHER JIM BYRNE who was formerly stationed at the Holy Ghost parish, Whitman, is now a curate at St. Mary's in Waltham. In addition to his parish duties, Father Jim is also a director for the **Waltham Family Service Association**.

BOB PICARDI is now Colonel Picardi USMC with headquarters at Quantico, Virginia. Bob, a career man in the Marine Corps, is commanding officer of the post service battalion. Also on the sprawling Marine installation is **GERRY RUSSELL**. The starry middle distance runner for the late Jack Ryder is also a Colonel in the Corps and is assistant director of the Marine Corps Amphibious Warfare School located at Quantico for officers of field grade.

Another transplanted Bostonian succumbed to the lure of Virginia's rolling countryside is **VIN NASCA**. Operating out of FBI headquarters in Washington as a Special Agent, Vin lives in Falls Church.

JIM FULTON, still loyal to the home town, is with the Norwood School Department which he serves as a guidance counselor.

FATHER FRANK CONNORS is now assigned to St. Mark's parish, Dorchester after serving at Spellman High School, Brockton. Is very active in the Chi Rho activities.

From making sparks in the Physics Lab as an undergrad to directing 'sparks' as Superintendent of Fire Alarms for the town of Acton Fire Department is the progress report on **JOHN McLAUGHLIN**. John is with the Raytheon Company as an electrical engineer. He is also a senior member in the Institute of Electricians and Electronic Engineers.

Sorry to hear that Charlestown's **JOE DESMOND** can't make the upcoming Alumni Week celebration. A member of the Dominican Order, Father Joe has been teaching until recently at Providence College. Understand he has been assigned to teach Sacred Scripture at the Dominican Seminary in Nairobi, Kenya, Africa.

Closer to home, **FATHER JOE REILLY** is now a curate at St. Agatha's in Milton. Was formerly at St. Mary's in Foxboro, and served as an Army Chaplain. Father Joe holds the rank of Lt. Colonel in the Massachusetts Air National Guard.

It will be broken bones instead of broken stones if I forget our class spark plug, **OWEN HILLBERG**. Owen has transferred his allegiance from Wellesley to Natick. Is associated with the Mass. Broken Stone Company of Weston. He is purchasing agent for the company.

Add the names of **JOHN MITCHELL** and **BILL DUFFEY** to those in the class involved in the field of higher education.

Both are members of the faculty at American International College, Springfield. Mitch is Dean of the college, while Bill is an associate professor of English. Both reside in Longmeadow. Bill's girl Matha is at Regis.

Also at Regis is **FRANK BURNS'** girl Jeanne. Frank is living in Framingham and commutes to Lexington where he is with the purchasing department of Raytheon. Still hitting the long ball, only now it's from a golf tee.

Need money for that big weekend? See **PAUL BROOKS**. Paul is branch manager of the Burlington office, the Middlesex County National Bank.

Speaking of Brooks, we don't need a loan, but rather a line on another Brooks. Phil, where are you?

Santacross Distinctive Shoe Service in downtown Boston? Yes, that's **GORDON** who is the owner of this enterprising establishment.

JACK MORRISSEY who still looks like a Freshman is with the Bureau of Customs here in Boston. Jack is a Supervisory Customs Inspector for the ports. Now living in Medford.

FATHER BILL CARPENTER who was very active in those championship CYO athletic activities while a curate at St. Paul's in Dorchester, is keeping busy with the same program now at St. Theresa's, West Roxbury. Father Bill is also area Chaplain for the Boston Council of Boy Scouts.

DAN RILEY is practising law in his hometown of Medford.

Hqs. Pusan District Command, APO 96259 San Francisco is the mailing address for **FATHER FRANK FORD**. Frank, a Major in the Chaplain Corps, is based in South Korea with a parish the size of which has made him an expert in the maintenance and flying of helicopters. Would like to hear from you.

JIM PRATT, with a doctorate added to his name, is working for the government in Washington as a Scientist Administrator for the Bureau of State Services.

WALLY BRICKETT now lives in Englewood, New Jersey. Represents the Atlantic Cement Company in its legal and accounting transactions.

JERRY TWOMEY is putting his undergraduate Chemistry knowledge to good use as a development manager in the chemical end for US Rubber in its Philadelphia office. Jerry lives in suburban Churchville, Pennsylvania.

GENE and **Winnie McAULIFFE**, and their eight youngsters are living in Arlington, Virginia. Gene is with the Department

of State. He is Director of the Office of Public Services, Bureau of Public Affairs.

In the social affairs department, DON MULCAHY writes from Falls Church, Virginia, to say that his daughter Sheila married Bernie Finan's son. How loyal to the class can one be! Don, incidentally, is an Administrative Officer for CIA. The Mulcahy-Finan merger also moved Don into the exclusive branch of our class, the Grandfathers Club. Bill Griffin, first in, is President. Don, the only other known member, becomes Vice-President.

AL SINOFSKY is with the Jewish Family and Children Service on Cornhill, Boston. Al now lives in Newton.

Add to the list of financial advisors in the class the name of FRANK HASSEY. Frank conducts his own thriving insurance business from his State Street, Boston office. Now lives in Needham.

Finally, heading for the climax of our celebration, congratulations to those who planned, and those who attended the many functions. If you're still on the outside, it's not too late. Alumni Week is still ahead. Hope to see you in attendance.

This is our 20th Anniversary year and much has been going on. For the first time that I can remember we had an overflowing crowd for our table at Laetere Sunday breakfast. We won't give the names of those who attended this and our reunion stag meeting a few weeks before at Alumni Hall as we have an abundance of news and notes for this issue. A class co-chairman group consisting of JOHN CAMPBELL, T. X. CRONIN, JACK CURRY, PAUL PAGET, JAKE SANTAMARIA, TOM LOFTUS and LOU SORGI was elected until future notice or removal without cause, and we had a great Class reunion dance and midnight Champagne breakfast at Alumni Hall on May 1st. In bringing you up to date on the class members I heard from. I have taken the liberty of quoting in many cases from our class year book of 20 years ago which is interesting. . . .

ED BURBANK now lives in Dedham with Alice and their four children Stephen, Eileen, Susan and Anne. JACK FARRELL has been elected President of the New England Football League. If you have the opportunity to see a N.E.-F.L. game during the coming season, get out and see one. You won't be disappointed! Jack won't be either, and the "Hedda Hopper" of our "infamous class" (as Jack puts it) will have assured himself a "press pass" in order to report more about the league in the future. Good luck, Jack!

BROTHER NICODEMUS (our own Edward O. Cavicchi '50) has been asked to participate in the Revision of Manger's text *Cours de Langue et de Civilization Francaise* by the Hachette Publishing Company. Brother Nicodemus mentioned in his letter that he never sees anything in this column about the representative. I think there has been from time to time, but to bring (Ed) up to date I'll kick modesty aside. Dorothy and I have added number five (Oct. 1, 1964) to the litter. The count stands now one boy (Paul) and four girls, (Laura, Linda, Lisa, Louise.) Paul and I feel outnumbered. I have my M.Ed., and 36 hours beyond with Literature a major. I am now teaching in the Lincoln Junior High, Framingham, Mass., and unless I decide to do something momentous,

Last fall had a nice letter from our old friend, JACK RICHARDS former co-sports editor of the "Heights", who hasn't lost his reporter's touch.

Jack informed us that 'LEN CLEARY of the January Division is now the father of seven children, living on Bartlett Avenue, Pittsfield and he is Manager, Guidance and Support Equipment Documentation, in the General Electric Ordinance Department.

Jack also informs us that 'PAUL LAUZON, now the father of four children, lives in Pittsfield. His wife, Lorraine is quite an accomplished painter and has been exhibiting all over the Berkshires. Paul is one of the few non-engineers ever to be made a salesman—he is called, Application Engineer—Support Equipment.'

Jack went on to say that although he has been living in Dalton, Mass., for the past few years, he had not yet run into AL POLITO but was still hopeful of doing so (I can't imagine why). That RUDY SACCO is very active as a lawyer, and Rudy and his wife have been very successful in operating a summer day camp in the Berkshires, and speaking of summer day camps, MARTY HEALY, teaching school in Lynn, also operates a successful summer camp in Topsfield.

Jack wondered about information from the "Lynn" gang . . . from someone living in that neck of the woods, so perhaps one of you Lynnties will fill us in on that score. PAUL O'BRIEN, incidentally, was and may still be, Coach of the Saugus High Hockey Team. As for JACK RICHARDS himself, he is now Editor of the "New Englander" which is a regional business and news publication, published by the New England Council, whose function is to promote New England business, vacations, World's Fair, etc.

Jack is very happy in his new job as it is right down his alley and although he is still living in Dalton at 60 South Carson Avenue, he is hopeful of locating in Boston shortly. It is necessary for him to divide time between Dalton and Boston on a week-end basis. His office is in Boston at 1032 State Office Building.

BILL BOND is Manager of Product Information with Minneapolis-Honeywell in Boston after being with I.B.M. for many years out west.

JACK RICHARDS also wanted to say 'Hello' to FRED MAURIELLO and to say how much he enjoyed reading the Alumni News.

We had a nice letter from TIM TOO-HIG, S.J. whom we had referred to in the Fall issue as being a Physicist at Cal Tech working on cyclotrons. We asked him to please let us know if we were in error—and he did! "Father Tim" writes as follows: "Dear Jim: In response to your query in the Fall issue of the Alumni News, I am presently in third year of Theology at Woodstock, with hopes of being ordained June 12th (1965) at Weston.

I spent the past summer at the University of California, Berkeley, designing experiments for a proposed new proton synchrotron. I had previously spent 1960-61 at Berkeley on an experiment with a grad student at Johns Hopkins. At that time MAURICE MORONEY was a very gracious host on a number of occasions. I suspect that it was this stay that OWEN

KELLETT was referring to.

"The fall issue of the News is the only one that I have seen in a number of years, so it was good to get caught up on the whereabouts and doings of the class after such a long time. Prayerful best wishes to you and your family, and to the members of the class.

Sincerely in Our Lord, (signed) TIM TOOHHIG, S.J."

Also, received a nice note in February from BILL LEWIS, formerly of the Economics Section, and West Hartford, Connecticut. Bill writes that he is now living at 4225 Wendell Road, Orchard Lake, Michigan, with his wife, Helen and five children. He is now Manager of Marketing, for Federal-Mogul-Bower Bearings, Inc., of Detroit, Michigan, after having been Sales Manager, Automotive Consumer Products, for Dow Chemical Company.

We had an enjoyable winter following the Hockey Team at McHugh Forum and had Season's tickets a few seats from LEW WYER and his five friends at the Clark, a former secretary at Alumni Hall. Lew and Winnie were married on Monday, April 19th. We wish them much happiness.

We spent an enjoyable Retreat week-end at St. Gabriel's Monastery during January with ROD CONNELLY, a fellow-attorney and conveyancer who is practicing with the firm of Lyne, Woodworth and Everts in Boston.

We had a great evening féting the Hockey Team at the Pike's Peak Dinner, held at Campus and were very happy to see GILES THREADGOLD, one of the busiest referees in the area, and FRAN HARRINGTON, a great Wing, who is now living in Hampton, N.H. Fran was formerly with the F.B.I. and at this writing we are looking forward to seeing them again at the testimonial for JOHN P. CURLEY. JACK CONNELLY and his wife, Martha were also in attendance . . . and still all smiles, I might add.

MIKE TARICANO has returned from Italy after seven years in Milan and Rome as representative for the Burrough's Corp. It was nice to see both Mike and Dodo again and they are once again living in Newton with their children. Mike is planning on building a new home in Newton.

We would like to hear from PAUL DUFF, PAUL DUNBAR, RAY McANDREW, TOM DEEGAN, JIM POWERS, PAUL DOYLE, BILL JENNINGS, TONY JOHNSON, CARL MADDALENI, and TOM MAHONEY. Also, FRED O'NEAL, LEO SULLIVAN, FRANK SIKORA and BOB GOGAN . . . as to their whereabouts and activities. We are sure their friends would like to hear from them.

Once again, we are looking forward to the Annual Spring golf tournament at Wollaston and look for some par-breaking scores from MAL CONNOR, ED WHITE, JACK MULHERN, OWEN KELLETT and PAUL KELLY, all of whom participated last year. . . . Hope to see some familiar faces there this year, too.

The Class had a very successful evening at our annual hockey game followed by a social at Tallino's. Game and social attended by more than forty five couples. The success of this affair can only be attributed to the hard work of co-chairmen ED CONNOLLY and BOB DOHERTY. Bob said that Ed, who unfortunately had to be out of town that night, did all the work and while I am sure that Ed would give like praise to Bob it was really a good example of somebody doing all the work.

The same thing can be said for AL SEXTON of ROGUE CONNOR with regard to Laetare Sunday where the class of '52 had over sixty in attendance.

We hear that KATHY BAILEY is planning a summer wedding as is BILLY GENTILE and HEATHER McFARLAND. Congratulations!

A recent note from NANCY and GREGG VOCI brought us up to date on their activities. Gregg is teaching at Pittsfield High School and they have bought a new home in that town. They are very proud of their newest addition, a second son named David. We wish more of you would drop us a note.

Our condolences to PAUL LYNCH and LEO SHEA whose mothers passed away recently.

Had a nice note from BUB CASHMAN who has assumed Boston as part of his territory for Keenen-Cashman Company. Bub's wife, Jackie gave birth to their second boy Anthony Bernard III (quite impressive) in early March. OPPORTUNITY...

Now may be the time for you to think about a career-change. This could be your opportunity as it was for Bob (left) and Bill Cleary (right), two of our bright young college-graduate associates.

Leader-type men with real motivation to establish and operate their own businesses, they responded like natural to the marketing training tutelage of our "pros."

We are seeking a sales-oriented man to join our well-established 44 year-old firm (New England Life itself is nearly 3 times as old!). Our selection process is uniquely painstaking because we want only the right man. It could be you. Inquire about it from Bob or Bill at

KEVIN DOYLE is busy expounding the charms of Thermo Fax Products but still finds time for an occasional New York trip to enjoy himself. Miss Sharon Leahy, fiancée of BOB WHITTEN was recently pictured in the Boston Globe pinning a flower to the lapel of John P. Curley as he was preparing for a testimonial given in his honor, as he retires from Boston College after thirty-six years of service to Alma Mater and her athletic program. We of the class of 1962 who have had the honor of knowing this gentleman will certainly regret his retirement, but as he has so many fine achievements, we have a fine athletic facility and nationally known sports teams. JACK TOWLE is a salesman for H. J. Dowd Paper Company, and is very enthusiastic about his work. DICK HART and JACK MacKINNON were among those in attendance at the Laetare Sunday Communion Breakfast at McHugh Forum. This was a terrific event and the attendance from our class was quite good. Again I wish to thank those of you who have taken the time to write to the Alumni News. I am looking forward to seeing many of you during the Alumni Day events. Please give some thought to our own class reunion.

Our sympathy to KATE LIVA whose father died in January.

Class members who had the pleasure of

knowing JUDY (DONAHOE) ARDOLINO will be saddened to learn of her sudden death. Judy was a Doherty Ed. until her June wedding and was very active and liked by all. I am sure she will be remembered in all our prayers.

We have a little news from the nurses for this issue—guess most of them are too busy in their new roles to write any tidbits.

However, we managed to corner BOBBI KEANE at the Waltham Hospital where she was raving on about her favorite boyfriend, BENEDICT, new son of Dr. and Mrs. David Woo (Pat Frawley). She also reported that MARY DAHERY and

JOAN BAUTZ are in Spain for six months.

Back in U.S., KAY WILLIAMS is leaving the Boston area to begin working at the Cornell Medical Center. MARIE BRADY whose new name is still unknown is teaching at Melrose Hospital.

JUDY (McLAUGHLIN) and John Kelly welcomed a bouncing boy into the world in February and JOAN (DONAHUE) and Joseph Sullivan are preparing a nursery in their new home in Waltham, for occupancy in May. ED MEYER (CBA) has for his initial assignment wearing the Navy "Blue" an ammunition ship in South Vietnam. PHIL AMAIO (CBA) is a Second Lieutenant in the Army Finance Corps. JIM "DUBBER" DOOLEY (CBA) graduated fourth in his class at Pensacola Flight School. Second Lieutenant, RICHARD J. DOYLE (A&S), U.S.M.C., has completed the basic course at Quantico, Va., on March 18 and now is enroute in a medical course in engineering at Camp Jejeune, N.C. before heading for the Caribbean and the Mediterranean. Ensign BILL SLATTERY (CBA) after having graduated from NAVY O.C.S. at Newport (Dec. 18, 1964) has been assigned to duty on the newly commissioned aircraft carrier, U.S.S. America.

On February 27, wedding bells chimed in Bethesda, Maryland for ELLEN MORAN (ED.) and DAVE MARANTINO (CBA). The couple is presently residing in Athens, Ga., pending Dave's completion of Supply Corps School. Married April 24 in Villanova, Pa., were ANDY J. MURPHY (CBA) and his long-time sweetheart, Pat Brown. DICK CONNOR (CBA) stationed at Ft. Briggs, Texas, and Marilyn Coughlin are engaged. Also engaged are GEORGE DAVIS (CBA) and Diane Rice. ANDY DOMENICK (CBA) has some interesting things to tell as a novice in for United Airlines. Andy is living in Boston.

Longing for pen pals are ROSEMARY DOOLEY (N.), JUDY HARTY (N.), ANDREA KERTAVICK (N.) and JOAN LANGAN (N.). Their collective address: 2919 Pacific Ave., San Francisco, Calif.

Much of the information received this season came from anonymous letter writers, so I can hardly be held to blame for any inaccuracies. I do though owe an apology to DICK DACEY for having written that he was engaged. Dick informs me that this is untrue. ouncements I am quite sure are correct: TOM MCGOVERN became engaged to CAROL MELANSON (both '64) in December. Tom is presently at the Wharton Graduate School of Business. The wedding will take place July 17th in Worcester. JACK MCENANEY (A&S) and Celia Lorraine Hayeck were wed on April 24th, in Woodbury, Conn. They will live in New York City. KATHLEEN NEVILLE (Ed.), who is teaching in Chelmsford, will be wed to Martin A. Berwick, III, a M.I.T. graduate student on August 7th. ELIZABETH O'CONNOR, Vice-President of her Class in Nursing and who is presently at the Peter Bent Brigham Hospital, and Bernard R. Hand of the Boston University School of Medicine will be married in June.

JOE MURPHY (A&S) and Mary O'Hara, sister of MIKE O'HARA '64, announced their engagement, as did ART LOTHROP '64 and MARDY HOLLAND. Art is presently working towards his Masters at B.C. It would be good to mention that, in addition to Art, DEWAIN LANFEAR, ARTHUR DOYLE, BILL COLLINS, BOB SILBERNAGEL, TOM ADLER, BILL CONNORS, and JERRY O'SULLIVAN are also working for Masters Degrees at the Heights. But let me finish the nuptials before turning to other matters: DAVE WISH (CBA) and Toby Gaile Korins have set Sept. 12th, as their wedding date. Lt. PAUL ROLLINS, USMC, who is presently at Quantico has announced his engagement to Annemarie Rooney. And JOHN J. SHEA (CBA), having completed active duty in the Marine Corps, has announced his engagement to Betty-Ann Bergon. They plan a Fall wedding and John will begin graduate work.

As an up-and-coming Personnel Manager at the Genoa Packing Company, DICK MACDONALD has had ample opportunity to realize the practical value of a Psychology background. Dick recently finished serving four months in the Army at Fort Dix, N.J., right next to TOM EGAN'S old stomping grounds. The mention of "Psychology" brings to mind the facts that DICK DOYLE is at the New School for Social Research and JOE HEARNS is at the University of Massachusetts. Also at U. of M. is CARL STASIO. At the State College in Boston are BOB BENT and BILL MAFFIE. BOB and ARTHUR DOYLE have been re-elected as Town Meeting Members in Milton. Recently commissioned were: PAUL KANE (USNR), DICK GIBBONS (USMC), and TOM DONOVAN. BILL FLYNN is at Yale Medical School and FRANK MCCARTHY is at Amos Tuck Business School. EMMETT MCCARTHY is working in Albany for the State of New York. Among those at George-

town Law School are: TONY SANTORO, BRIAN CONDON, and DAN POLVERE. That seems to be the news for the moment. Of course, all the really juicy stuff is missing because you don't write.

LOWELL, MASS.
Permit No. 54

Today, in the New Boston and its suburbs, First National is the place to shop for food, just as it has been for generations. The reasons are as many and as valid as ever.

First National Supermarkets are numerous and conveniently located throughout the area. Inviting, streamlined, complete — modern as tomorrow — they've never lost the friendly neighborliness of their corner store counterparts of an earlier era.

Best of all, First National's essential "storekeeping" policy is today what it has always been: the best in food at lowest possible prices every shopping day of the year. Quality — guaranteed quality — is a proud matter; thrift is a watchword. Indeed you'll save twice . . . once on low prices, again with America's most valuable trading stamps, famous S & H Green Stamps, of course.

These then, are some of the reasons why First National Stores is the region's leading food distributor . . . why First National is the place to shop!
